DEATH OF MRS. T. A. LINDBERG

On Saturday, July 18th, Mrs. T. A. Lindberg passed away at her farm home north of Jarro. The deceased lady had been in failing health for some considerable time and had but recently returned from visiting her mother where it was found impossible to give her anything but temporary relief, as she was suffering from an incurable disease, which she bore with Christian fortitude.

Her passing was a shock to the many with whom she had come in contact, having lived in town for several years and been an active member of the local Ladies Aid and a regular Church-goer.

Marie Millar was born in Varde, Denmark, 70 years ago—went to Colorado in 1892 and married T. A. Lindberg the same year, and from there to Jarro, 16 years ago.

She leaves to mourn her loss, her husband, son and daughter-in-law, all so five grandchildren in Jarro, and relatives in the States and Denmark. There was a most impressive service at the Church, which was filled to capacity with those who went to pay their last respects to the departed. Mrs. Taylor and Mrs. Waite rendered a duet, and the Rev. Taylor gave a fitting address. The interment took place in Jarro cemetery, the floral tributes were beautiful including: The Jarro Citizens, The Jarro Ladies Aid, The Victory Lodge, The Moore family, Mr. and Mrs. W. Bridgesman, Mr. and Mrs. D. Whidden, Mr. and Mrs. H. Whidden, H. H. McGuire, Mr. and Mrs. A. Christensen, Mr. and Mrs. Kerns, and others without cards attached.

CARD OF THANKS

Our heartfelt thanks to all kind friends who by kind words and gifts of flowers, endeavored to brighten the last days of our dear Mother, and for their kindly help and sympathy and beautiful floral tributes at the funeral service.

T. A. Lindberg & Family,
Jarro, Alberta.

CHURCH NOTICES AND ACTIVITIES

ANGELICAN CHURCH NOTICES
The W. A. of the Anglican Church are serving afternoon tea and a sale of home cooking on Saturday, August 1st, at Mr. G. Fletcher's store on Main Street. Any donations will be greatly appreciated.

The service will be as usual on the 9th of August at the United Church, Rev. G. Sedgewick will preach for that Sunday. Rev. Truendal will be absent on his vacation. It is hoped all who can will attend these services.

On Sunday, August 23rd the Rev. L. A. Bee of Viking will take the service at the United Church at 3 p.m.

The next W. A. meeting will be held at the home of Mrs. C. Knowles on August 11th at 2:30 p.m.

Please don't forget the sale of home cooking on August 1st at J. Fletcher's store.

IRMA BRANCH

CANADIAN LEGION B.E.S.L.

An executive meeting will be held on August 3rd at 8 p.m. in Cde Cole's office—W. E. Inklin, Sec.-Treas.

A very successful picnic was held by the above branch on July 22nd. The weather was fine and the lake too. The majority of the large number of people present, were in the lake having a good time till supper, then some good races were run and other sports. The boys' tug of war was a hard fought pull.

FAIR CANCELLED

Owing to the busy season and many other attractions, the directors of the Irma Agricultural Society have decided that it would be advisable to cancel the Irma Fair this summer.

CRESCENT HILL NEWS

On Tuesday afternoon, July 14th, Mr. Fitzpatrick was doubly surprised when her parents from Edmonton, Mr. and Mrs. W. J. Sutherland and their daughter from Detroit, Mrs. Stewart and their grand-daughters, baby Ethel Stewart and Miss Dora Henderson drove into the yard after having spent an enjoyable week end with their relatives at Viking.

On the following Sunday the party motored to Viking accompanied by Myrtle Fitzpatrick who were joined on Monday morning by Mr. and Mrs. Fitzpatrick, Mr. Willie Fitzpatrick and Miss Sanders. With fine weather and smooth roads they motored to the city and after four enjoyable days were spent renewing acquaintances the residents from Crescent Hill returned. They reported that they had a good time.

Mr. Sutherland, while here, expressed himself as not seeing crops better than those in Crescent Hill district. The girls around the district are trying to organize a soft ball team. Watch their results.

"Why are you teeth and fingers so blue?"

"Cause I've been picking and eating Saskatoons."

King's Park at Fabyan bridge is being visited quite regularly by Sunday restorers.

FUTURE CATTLE MARKET

IN WEST BRIGHT SAYS

PRESIDENT OF EXCHANGE

An increasing export trade overseas in livestock, is seen by W. J. McGowan, President of the Winnipeg Livestock Exchange, who, with nine directors of the Exchange, have returned from a tour of the West over the Canadian National, for the purpose of making a survey of conditions.

Overseas shipments, according to Mr. McGowan, have netted remarkably good prices, so much so that winter-fed cattle are practically sold out. Cattle sales on the Winnipeg market have this year shown a 25 per cent increase over the same period of 1930.

The hog market has been exceptionally good and the sheep and lamb market has held up well.

Included in the party was Charles Mayhew, President of the Canadian National Livestock Exchange, and who was elected honorary vice-president of the American Livestock Exchange at St. Paul, marking the third time in 43 years that this honor has been conferred on a Canadian.

The Irma girls baseball team are preparing for action again and expect to play the teams at Wainwright and Viking in the near future.

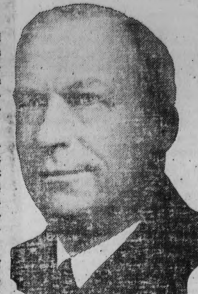

A. E. Whitmore

IN addition to being associated with many other public activities in Western Canada, A. E. Whitmore, of Regina, is vice-chairman of the Executive and Finance Committee of the World's Grain Exhibition and Conference.

He was born at Dunville, Haldimand County, Ontario, in 1876, but when quite young came to the west with his parents. He received his preliminary education in the Regina and Moose Jaw schools, later attending Upper Canada College, Toronto.

Ranching in the district west of Yellow Grass, Saskatchewan, was Mr. Whitmore's first introduction to the agricultural industry of the West, since which time he has become interested in a practical manner with several large farming undertakings. He has donated the use of one of his farms near Regina for the purpose of conducting growing tests of grain entered for exhibition at the 1932 world-wide event, to be made under the supervision of the cereals from the federal experimental farm branch of the Department of Agriculture.

In 1905 Mr. Whitmore, with his brothers, entered the business field in Regina. From 1903 to 1912 he was a member of the Saskatchewan Legislature. He has also occupied the position of president of the Regina Board of Trade, and is head of the Regina Agricultural Exhibition Association. He is a member of the directors and on the advisory board of several large financial and commercial institutions, is on the board of the Anti-Tuberculosis League of Saskatchewan, a trustee of the Great War Veterans' Trust Fund, and chairman of the Regina Municipal Air Board.

Boys Enjoy Life at Camp Lake

C.S.E.T. CAMP AT CAMP LAKE

The Canadian Standard Efficiency Training Camp came to a very successful conclusion on Wednesday, July 22nd, after a pleasant and profitable week on the west shore of Camp Lake, by kind permission of Mrs. J. C. Stewart.

There were thirty five boys and four leaders in residence. The Camp was organized in Tribes representing four Continents. Jack Skaltitzky of Viking was elected Grand Chief of the Camp, and much credit is due to him for the enthusiasm engendered, co-operation secured, and the effectiveness of the daily programs. The following was the personnel of the Camp:

Grand Chief:—Jack Skaltitzky, Viking.

Africans:—Earl Hardy, Viking (Chief); Russel Alexander, Viking (Camp Bugler); Ivan Jackson, Green-shields; Harold Robinson, Holden; John Moore, Jarro; Albert Glasgow, Irma; Wesley Orr, Jarro; Jim Matthews, Jarro; Bob Maguire, Irma; Tom Haythorne, Alberta. Boy's Work (Attached).

Australasians:—Ronald McLaren, Viking (Chief); Archie Hardy, Viking; Eddie Stewart, Holden; Stuart Fenton, Irma; Jack Peterson, Irma; Willy Melbourne, Irma; Billy Barber, Quinte; Fred Roddick, Viking; Gray McLaren, Viking; Tom Taylor, Jarro (Attached).

Asians:—Ralph Schonert, Irma (Chief); Neil Bosworth, Holden; Billy Rosen, Viking; Stuart Purvis, Viking; Walter Doran, Holden; Bob Guiltner, Irma; Lester Taylor, Jarro; John R. Geeson, Irma (Attached).

Europeans:—Winston Porter, Donald, (Chief); Roy Lattner, Irma; Douglas Craig, Viking; Dalton Herbert, Irma; Ray Locke, Irma; Dave Sheets, Viking; Woodrow Holmes, Quinte; Eric Bosworth, Holden; J. W. Bainbridge, Viking (Attached).

A typical day's program was as follows:

7 a.m. Reveille; 7:05 Physical Jerks; 7:15 Morning Drill; 7:45 Flag Raising; 7:50 Breakfast; 9 a.m. Devotions, and Talk on Abolition of War; 9:30 Group Games; 9:45 Bible Study; 10:15 Group Games; 10:30 Series on First Aid; 11 a.m. Swimming, Diving and Life Saving; Noon, Dinner.

1:15 p.m. Tent Inspection; 2 p.m. Treasure Hunt, Flower Hunt, Aquatic Meet, Indian Sham Battle, Etc.; 4 p.m. Swimming and Diving; 5 p.m. Team Games, Basketball, Etc.; 6 p.m. Supper; 7 p.m. Team Games, Volley Ball, Soft Ball; 8:15 Vesper Service; 8:30 Flag Lowering; 8:45 Camp Fire Programs; 10:15 Lights Out.

The Tribes competed for points in all their various activities, with the following results:—Europeans 472, Australasians, 363; Africans 340, and Asians 265.

Mrs. J. Alexander was Cook to the great satisfaction of the Campers. The weather was ideal, and the only fault to the camp was the period was all too short.

Phillips News.

Mr. Dilling and family left for Denmark on Sunday. A large crowd of friends were at the station to bid them farewell. They have been residing at Phillips for some time, and having made many friends here, they no doubt left with heavy hearts. We all hope they have good luck in their home land.

A party of berry pickers from Woodgreen visited this district on Thursday. They didn't come in vain as they went home with cars loaded. Guy Harris found some berries near Quinte school. The berries are as good as usual.

Due to the recent rains which have visited this and adjoining districts, the grain and other crops show marked improvement. The wheat is nearly all headed out and some of the oats and barley is hitting the top notch. The wheat on last year's summerfallow is exceptionally good.

Some of the Phillips farmers are using this year's potatoes and they are as good as ever. Too much moisture has done little harm to the potato fields.

Several people from here attended the Bruce stampede.

A ball game was held at the grounds one half mile south of Ribstone Hill school on Sunday. The three competing forces were Glenora, Ribstone and South Siders. The South Siders won the day with Glenora 2nd.

The hay is getting ready to cut, in fact some of the farmers are already laying it low.

PUBLIC NOTICE

IN THE ESTATE OF NORMAN VICTOR KING, late of Fabyan, in the Province of Alberta, Farmer, deceased.

NOTICE IS HEREBY GIVEN that all persons having claims upon the Estate of the above named Norman Victor King, deceased, who died on the 18th day of May, 1930, are required to file with the undersigned Solicitor for the Executrix, at Wainwright, Alberta, by the 21st day of September, A.D. 1931, a full statement, duly verified of their claims and of any securities held by them; and after that date the Executrix will distribute the Estate of the said Norman Victor King among the parties entitled thereto, having regard only to the claims of which notice has been so filed, or which have been brought to her knowledge.

DATED the 15th day of July, A.D. 1931.

M. G. Cardell, Wainwright, Alta.
Solicitor for the Executrix.

NOTICE

To all ex-servicemen's wives, mothers and widows and ex-overseas nurses. It has been suggested that a Canadian Legion Auxiliary be formed among the above-mentioned women. All those interested are asked to meet at Mrs. J. P. Yeuds house on August 3rd at 8 p.m. when the Auxiliary will be formed and officers elected.

WEEKLY REVIEW PROV. MARKETS

BEEF—Choice heavy steers brought \$4.50@\$4.75; choice light \$4.50@\$4.75; good at \$4.25@\$4.50; medium \$4.00@\$4.25; common \$2.50@\$3.50. Choice heifers went over the scales at \$4.50@\$4.75, with good kinds making \$4.40@\$4.25.

FEEDERS, STOCKERS—Receipts in this market have been fair, while prices held about steady. Feeder steers brought \$3.25@\$3.75; stock steers \$3.00@\$3.75; stock heifers \$3.00@\$3.50; stock cows from \$2.50@\$3.25.

HOGS—At Edmonton prices were lower this week, with hogs bringing \$7.00@\$7.25; select \$7.50@\$7.75, and butchers \$6.50@\$6.75, fed and watered.

SHEEP—Prices at Edmonton were earlier, with lambs bringing \$5.00@\$5.25; ewes \$2.00@\$2.25; yearlings \$4.00@\$4.25.

CREAM—Prices steady, with special, 16c; first, 14c; second, 11c, at country points and centralizers.

POULTRY—Prices are unchanged: Broilers 12@14c for over two lbs, and 10c for under 2 lbs.; fowl, No. 1, over 4 lbs., 9@10c; No. 1, under 4 lbs., 7@8c; No. 2, 5@6c and roosters, 5c.

EGGS—Quotations unchanged with extra, 14@15c; firsts, 12@13c, and seconds, 9@10c.

HAY—Very few offerings of new prairie hay arriving on the market, while as yet no timothy sales have been reported. Quality of few arrivals good. Cutting is holding back shipments. Prices unchanged.

FEED OATS—Supplies fairly liberal, but movement is slow, as buyers are scarce. Prices unchanged at 20c per bushel, delivered.

The Domestic Animals Act (Mun.) SALE AND REDEMPTION OF IMPOUNDED ANIMALS

NOTICE is hereby given under Section 48 of The Domestic Animals Act (Municipalities) that—

RUSSIA SELLING BUTTER

Russian imports of butter to Britain have commenced, according to advices received by the Canadian National Railways agricultural department. Several thousand boxes have reached England and the anticipation in authoritative quarters is that the present year will see something like 600,000 to 700,000 boxes of Russian product on the British market.

RODINO SPORTS WED. AUGUST 5TH

The Rodino Athletic Club will hold their Annual Sports Day on Wednesday, August 5th, on the grounds 2 miles south of Rodino School, 16 miles east of Viking, and 19 miles north-east of Kinsella.

Included in the day's festivities are baseball tournaments, soft ball, basketball, football and tennis. Other sports such as foot races, horse races, tug of war, jumping and athletic events will round out the program.

Refreshment booths and hot dog stands will cater to the needs of the crowds. Bring your own lunch if you wish; coffee served free to all. The admission to the sports is adults 25c children free.

The Rodino sports last year proved some of the best in the district and the committee this year is sparing no pains in putting on a real program. Everybody invited to come and gather at the Rodino sports before the harvest season commences.

SHORTHORN FIELD DAY

AT VERMILION AUG. 5th

A Shorthorn Field Day will be held at the Vermilion School of Agriculture on August 5th, conducted by the Northern Alberta Shorthorn Club with the co-operation and assistance of the Lloydminster Shorthorn Breeders Association and the Provincial Department of Agriculture.

Those interested are invited to meet at the Vermilion School of Agriculture on Wednesday morning, August 5th, promptly at 9 o'clock.

Bring your own lunches, coffee and tea provided free by the Vermilion school of agriculture. The program and lunch will be over in time to permit those to spend the afternoon at the Vermilion Fair.

The program which opens at 9 a.m. and closes at 1 o'clock noon, includes addresses of welcome by officers of the Club, government and association officials.

Address on "How to Fit Bulls for Sales" by S. G. Carlyle, provincial live stock commissioner.

Address by A. E. Meyer on "Short-horn Lore."

Demonstration of Type by Mr. H. A. Craig, deputy minister of agriculture assisted by Mr. David Andrew, of the faculty of the Vermilion school of agriculture.

Everyone who is interested in the improvement of cattle on the farms of northern Alberta is invited to attend this Field Day, whether a member of any of the clubs or not.

Berry picking seems to be the order of the day and everyone is out to fill the empty jars. We hear whispers of some ladies having done up over two hundred quarts.

ENO is pleasant, gentle, safe and sure.

A daily dash of ENO in a glass of water every morning, tones up and sweetens the entire system.

ENO'S FRUIT SALT

Our National Parks.

One little item of national good which seems to have grown out of the prevailing and much discussed business depression is the increasing number of Canadians who are this year making visits to and holidaying in the National Parks of the Dominion. This very satisfactory development may have been caused by the financial inability of many people to indulge in more expensive trips, probably so, but it may also have resulted from increased publicity and a growing appreciation of these parks and the wonderful variety and beauty of scenic and other attractions which they present.

Canada, like all countries, has made some very good as well as some regrettable bad investments, but in no other department of national administration has more foresight been shown, or a better investment made, than in the setting aside in all provinces of generous areas as national playgrounds, and leaving them, for the most part, in a state of undisturbed natural beauty so that future generations in the centuries to come may know what this country was like before it became the home of teeming millions with all the artificialities which invention and an ever advancing machine-age may bring.

As a result of this foresight, Canada today can boast of the largest and finest system of National Parks possessed by any country in the world. Embraced within their boundaries are great mountain peaks, large lakes, wonderful rivers, beautiful waterfalls, almost every kind of wild animal known to this northern half of the continent, fish, trees and wild flowers of every variety. They are, in a word, Nature's great storehouses of natural wealth and beauty.

More than this, each National Park is an animal and bird preserve and, thus, providing a guarantee against the extinction of these wild species in this country and safeguarding Canada from such losses sustained in other lands. In fact, Canada has done even better than this. Not many years ago people declared that the buffalo which once roamed our western prairies in countless thousands had become extinct. There were, however, a few held in captivity by private individuals in the United States. The Canadian Government, with foresight, seized the opportunity and purchased these animals, about \$100,000 in all, twelve years ago, and brought them to Canada, placing them in the National Park at Watkins, Alberta. Today there are 6,000 buffalo at Watkins, 1,000 at Elk Island Park, Alberta, and about 13,000 at Wood Buffalo Park, Northwest Territories. All these herds are increasing.

Canadians thus have not only great national playgrounds but Nature's own zoological gardens. They constitute a national asset of great value today, which money could not buy, and which will increase rapidly in value with the passing of time. Full appreciation of the National Parks should be taken by all citizens. They are easily accessible to most people, if not on park, then another one. In a year such as the present they offer the ideal holiday for people with few dollars to spare. Take the children to them. Let them see the buffalo, the elk, the bears, in their natural habitat, and not merely by picture in school books. Let them, especially our prairie boys and girls, know the joy of roaming among the trees, and the keen delight of fishing.

Western winters are long, and sometimes excessively cold, when we must be cooped up in our houses. Therefore, let everybody get out of doors when and while they can, and revel in the beauties and the health-giving attributes of Nature. Adults will appreciate such a simple holiday, but the providing of it is a duty we owe to the children. Nature is the best doctor in the world, and we should go to her as often and for as long a visit as possible. And Nature can be seen at her best, and enjoyed to the utmost, in the National Parks of Canada, the great playgrounds which are the property of every Canadian citizen.

States Cannot Claim Hawks

Famous Aviator Born in Australia Is Still British Subject

Just as a matter of record, without casting any reflection or making any insinuations against anybody, may it be stated that Captain Frank Hawks who recently cut the flying records from Montreal to Toronto, Toronto to Ottawa, and Montreal to New York, is not a United Statesian. He is an Australian and, therefore, British. His temporary home (if a man who is in the air most of the time can be said to have any home) is in Texas; but he is, and so far as we know has every intention of remaining, a British subject. So when next time your friend on the golf links or at the club talks about "Hawks, the American," please remind him that an Australian is not yet a citizen of the neighboring republic—Toronto Mail and Empire.

London women have a hatless craze.

Purebred Rams

Government Policy To Develop Uniform Breeding On A Community Basis

Supplying of purebred rams at stated prices and payment of freight to destination are outstanding features of the policy in the Ram Club policy of the Dominion Department of Agriculture. Under its policy, Hon. Robert Weir, Minister of Agriculture, points out graded lambs will be supplied as ordered by club members and the department will assume payment of any additional cost over the stated price. Freight charges to the nearest railway station to the club will be paid. October 1 is the final date up to which orders for graded rams may be placed with the Department in any year. The object of the policy is to develop uniform breeding on a community basis.

When its present ten-year program of improvements is completed, Sweden will have one of the best highway systems in Europe.

Suffered Severe, Painful Cramps In Her Stomach

Those terrible cramps in the stomach that double you up in pain and make you break out in a cold perspiration, may be stopped by a few doses of Dr. Fowler's Extract of Wild Strawberry.

Mrs. Lloyd Jones, 304 Argyle St., Halifax, N.S., writes: "I have suffered from severe and painful cramps in my stomach. I tried several remedies without result. One day a friend advised me to take Dr. Fowler's Extract of Wild Strawberry, so I bought a bottle and got instant relief."

Alberta Road Program

Work On Link With Trans-Canada Highway To Proceed

Construction work on the Alberta section of the proposed trans-Canada Highway will begin in the near future, it was intimated by the Provincial Government.

"Announcement of the road program was made following receipt of a wire from Senator Gideon Robertson, Federal Minister of Labor, stating not only that the Dominion Government will share with the Province on a 50-50 basis in the case of the trans-Canada Highway, but that the Province may confidently anticipate a Federal contribution on highway construction in drought areas.

Three possible routes as Alberta links in the highway have been suggested, in answer to a request from Premier Bennett, as follows: Jasper, Edmonton and Lloydminster; Jasper, Edmonton and Wainwright; and Banff, Calgary and Medicine Hat. When a choice as between these is made by the Dominion authorities, the lining up with the routes across the adjoining provinces, the way will be clear to begin actual operations.

Bounty On Wheat

Five Cents On Bushel Exported From Alberta and Saskatchewan

A resolution providing for the payment of five cents on every bushel of wheat exported from the Provinces of Alberta and Saskatchewan during the present year has been placed on the order paper of the House of Commons by Premier R. B. Bennett. This implements the announcement by Premier Bennett in his budget speech.

The resolution read as follows: "Resolved that it is expedient to bring in a measure to provide that the Governor in Council may authorize the payment out of the consolidated revenue fund of the sum of five cents on every bushel of wheat exported from the Province of Alberta and Saskatchewan of the crop of 1931, and to make provision for the determination of amounts payable thereunder, and for regulations to carry out the purpose of the act and prescribe penalties to be incurred for breach of the act or regulations."

The Oil Of The People.—Many oils have come and gone, but Dr. Thomas' Elettrolin Oil continues to maintain its position and increase its sphere of usefulness each year. Its sterling qualities have brought it to the front and kept it there, and it is now called the oil of the people. Thousands have benefited by it and would use no other preparation.

Abandon Rural Fairs

Sixty-Nine Agricultural Fairs In Saskatchewan Will Be Cancelled For This Year

Due to poor conditions, 69 agricultural fairs have been abandoned in Saskatchewan, J. G. Rayner, secretary of the Saskatchewan Agricultural Societies Association and director of extension work at the Saskatchewan University, has announced.

Altogether, 75 small exhibitions will be held this year. Most of the fairs which will not be held lie in southern Saskatchewan, although a few of the northern societies have decided to put off the fairs, due to lack of prize money.

Your Asthma, Too. The efficacy of Dr. J. D. Kellogg's Asthma Remedy is not something that is merely to be hoped for; it is to be expected. It seldom fails to bring relief, and in your own individual case it will do the same. So universal has been the success of this far-famed remedy that every one afflicted with this disease owes it to himself to try it.

Deaths By Violence

Increase Of Two Persons Per 100,000 Population Is Shown

An increase of two persons per 100,000 population in the number of deaths by violence is shown in a report issued by the Dominion Bureau of Statistics. The number of deaths by violence in Canada for 1930 was 7,468 as compared with 7,151 in 1929. Suicides numbered 1,007, a marked increase over 835 for the previous year, while homicides numbered 213 as against 182.

There were 6,249 accidental deaths, compared with 6,134 in 1929. Drownings numbered 1,057, deaths from traffic accidents 2,077 and automobile fatalities 1,289.

Western Market For Strawberries Extension of the home market and capture of a western market are foreseen for Ontario strawberries as a result of "chilling" experiments recently at the Simcoe Cold Storage Plant. Contracts are now being made by the Simcoe plant with growers to ship the bulk of next season's crop to the western provinces and northern Ontario.

If the way of the transgressor is so awfully hard, why is it so many people follow it?

W. N. U. 1900

Wheat Marketing Problems

Premier Bracken Of Manitoba Pleased With Outcome Of Regina Conference

Commenting upon the two-day inter-provincial wheat conference held in Regina, Premier John Bracken, of Manitoba, expressed himself as well pleased with the outcome, and confident that the conclusions arrived at, and the steps taken to implement them would result in the creation of arrangements and machinery which would solve some of the most important problems connected with the operation of the pool elevator systems and wheat marketing.

While expressing hearty appreciation for what steps the Dominion Government was prepared to take by way of financing the handling and marketing of the 1931 crop, Premier Bracken regretted that the Federal authorities could not see their way clear to act upon the unanimous recommendation of the three prairie governments, and all the farm organizations of western Canada, that a wheat board be created or market the new crop. He stated further, that he was firmly convinced that a wheat board would have been the soundest solution of the immediate wheat marketing problems and the best possible contribution to the serious economic emergency which exists in western Canada.

He was confident that the west would see an upward trend of wheat prices after the selling pressure of this fall was past, at which time the price effect of a number of fundamental corrections in the wheat situation would become apparent.

Continuing, Premier Mackenzie stated: "The vast majority of western farmers will be compelled by dire economic circumstances to market their 1931 crop as quickly as possible at the very time Russia will be obliged to market the larger part of whatever her exportable surplus may prove to be. The result is a certain absence of speculative investment buying to absorb the hedging pressure with the bearish influence of the uncertainties of the Russian situation, will in all probability mean lower prices at the time our farmers are delivering their crop than during the remainder of the year, with serious resultant disappointment to all those farmers who see prices on an upward trend after the control of their grain has passed beyond their hands."

First Aid Prize Awards

Championship This Year Goes To Kingston Army Medical Corps

"First aid" championship of Canada has been won this year by a team representing No. 3 Detachment of Royal Canadian Army Medical Corps, Kingston, Ont.

Results of the 1931 Dominion Trophy competition, conducted by the Canadian branch of the St. John Ambulance Association, show the R.C.A.M. team compiled a total of 291 points in the tests, as compared with 286 by the second ranking team composed of members of Canadian Pacific Railway police at Windsor Station, Montreal.

Other competing teams in the order in which they finished and their point scores follow: The Canadian National Railway's team, Fort Rouge Shops, Winnipeg, 279; fourth, C.P.R. team of Nelson, B.C., 268; fifth, C.P.R. team of Saint John, N.B., 250; sixth, Camrose Coal Company team No. 1, Camrose, Alta., 247; seventh, C.N.R. M.P., dept. team of Melville, Sask., 217.

Fighting Narcotic Evil

League Of Nations Reports Progress In Control Of Drug Traffic

The League of Nations experts have placed the amount of morphine which has passed into the illicit traffic between 1926 and 1930 at 100 tons. To this amount they also add six tons of cocaine.

Other statistics, however, demonstrate that actual progress is really being made to control the drug evil. Exports of heroin, for example, into 14 countries, which are generally regarded as the centres of the illicit traffic, have fallen from 3,555 kilograms in 1926 to 41 kilograms in 1930 as a result of the League's efforts.

Ontario Relief Plan

Accord with the views of Hon. George Henry, Premier of Ontario, in connection with the establishment of labor battalions in that province was expressed recently by Hon. Gideon Robertson, Minister of Labor. The Minister, however, made it clear that no suggestion of compulsory work was associated with the method the Premier proposed to employ.

It is all very well to say that the speed itself must go, but the trouble is that that's what he thinks, too.

Homeland Sends Greetings

London Papers Refer To British Columbia's Diamond Jubilee

"Hail British Columbia" is the heading of the London, England, Morning Post Leader in a recent issue referring to British Columbia's diamond jubilee as a province of Canada. The Post says the homeland sends affectionate and sincere good wishes to the province. It pays a tribute to the loyalty of British Columbia and recalls the courage and far-sighted vision of the pioneers of British Columbia enterprise west of the Rockies and dwells on the development of the province into "one of the most progressive and prosperous communities in the Empire."

The Daily Express also congratulates British Columbia on its diamond jubilee, and says: "Perhaps other provinces of our great Dominion will forgive us if in this country we have special affections for the 60-year-old province beyond the Rockies owing to her flattering habit of remaining as English as possible."

Peace River Outlet

B.C. Government Fears Project May Be Delayed

The British Columbia Government, it is intimated, views with concern the possibility that the fate of the Peace River outlet question and the future of the Pacific Great Eastern Railway may be delayed in its decision by reference to the proposed Dominion general transportation royal commission.

While favoring the appointment of such a commission for general purposes, the government does not wish these two questions to be subjected to delay. The provincial authorities, it is stated, will communicate with the Dominion Government to learn whether these matters would be referred to the proposed commission.

Toothache and neuralgia are instantly relieved with Douglas' Egyptian Liniment. A quick, sure remedy. Also recommended for burns, sprains, sores and inflammation.

Canada Praised By

Sir Alexander Gibbs

For Wishing Efficient Management and Construction Of Harbours

Sir Alexander Gibbs, noted English port authority and engineer, who has been commissioned by Canada to conduct an investigation into the functioning of Canadian harbours, arrived at Quebec recently. Sir Alexander stated Canada was giving an example to other countries in wishing efficient management and construction of her harbours. His task was of the highest importance, he said, adding that he felt honored in having been chosen to conduct the inquiry.

Light Cattle Wanted

Canada must produce more lightweight beef cattle to hold its market in Britain and to take care of home consumption contends Howard F. Raleigh, M.L.A., Lambton West, in a report prepared for the agricultural committee of the Ontario legislature, following an investigation of conditions surrounding the cattle-breeding industry.

Coast-To-Coast Telephone

Trans-Canada Telephone Line Will Be 4,263 Miles In Length

Direct telephone communication between Montreal and Winnipeg is now established, and marks the closing of another gap in a trans-Canada telephone system, which is expected to join Halifax on the Atlantic seaboard with Vancouver on the Pacific Coast, by the end of 1931. In all, eight telephone systems are co-operating in this coast-to-coast hook-up, which is designed to keep all purely Canadian telephone calls entirely within the boundaries of the Dominion.

The trans-Canada telephone line will be 4,263 miles in length, made up of 142 miles in Nova Scotia, 385 in New Brunswick, 1,952 in Quebec and Ontario, 242 in Manitoba, 465 in Saskatchewan, 418 in Alberta, and 569 in British Columbia. A total of 22 repeater stations will be necessary to boost-up the electrical impulses that carry the voice on its long journey across Canada.

Immediately preceding the opening of the Montreal-Winnipeg connection on July 4, a third commercial line from Toronto to Winnipeg and one which provides direct communication, free from intermediate switching at any point en route, was brought into use. The first service between Toronto and Winnipeg was established in 1928, and two of the circuits now in operation are equipped with carrier current apparatus, permitting several simultaneous conversations on the same pair of circuit wires.

The eastern link of the system between Halifax and Montreal was completed in January, 1929, and the recent hook-up completes the line from Halifax to Winnipeg. Much work has been done in this connection in Western Canada, a three-channel carrier system already operating between Regina and Calgary, and the work laid out by the provincially-owned system of Manitoba, Saskatchewan, and Alberta, together with the British Columbia Telephone Company, provides for the opening of the whole line this year.

Promotion Well Merited

Twenty-two years of service with the Royal Canadian Mounted Police (a good deal of which was put in with the old North West Mounted Police), which took him at one time into the Arctic regions in northern Canada for a period of two years, has brought Sergeant William Shutz of Weyburn, a well merited promotion to the rank of an inspector.

Complete in itself, Mother Graves Worm Exterminator does not require the assistance of any other medicine to make it effective. It does not fail to do its work.

The reason so many people miss the road to happiness is because when they come to it, it looks so much like a detour they take the better-looking side.

Cut Down Food Wastage

---by covering all perishable goods with Para-Sani Heavy Waxed Paper. Para-Sani moisture-proof texture will keep them fresh until you are ready to use them.

You'll find the Para-Sani sanitary knife-edged carton handy. Or use "Centre Pull" Packs in sheet form, for less exacting uses. At grocers, druggists, stationers.

Heavy Distribution Of Fish Fry From Prairie Province Hatcheries To Stock Lakes And Streams

More than 479,000,000 fish eggs, fry, fingerlings, and yearling fish, and a few older fish, were distributed last year from the hatchery establishments operated by the Fish Culture Division of the Canadian Department of Fisheries.

These were Atlantic salmon, speckled trout, rainbow trout, brown trout, hybrid brown trout, a few albinos, brown trout, loach, leech trout, salmon, cut-throat, Kamloops trout, cut-throat and Kamloops crosses, cunamacha, landlocked salmon, pickerel, whitefish, sockeye salmon, spring salmon, coho salmon, chum salmon, steelhead salmon or trout, and Kennerly's salmon.

By such distributions, which go on from year to year, the Fish Culture Division assists nature in maintaining and increasing the existing supplies of fish in various Canadian waters, stocks lakes and streams which are barren, and introduces different species of fish into areas to which they are not indigenous, thus making more fishery nature in swam before and aiding both the commercial fishermen and the anglers.

The largest distribution was from the hatcheries in the Prairie Provinces. From the hatchery establishments in Manitoba there was a whitefish distribution of about 130,000,000 and a pickerel distribution of over 107,000,000. In addition, there was a salmon trout distribution of upwards of 195,000. From the hatchery at Fort Qu'Appelle, Saskatchewan, nearly 15,610,000 eggs, etc., were sent out—whitefish, for the greater part, some pickerel eggs, and some brown trout. The distribution from the Alberta hatcheries reached a total of more than 103,250,000.

Safety In Flying

Accidents Would Be Reduced If Proper Precautions Were Always Taken

Col. W. A. Bishop, V.C., Canada's most famous aviator in the Great War, was twitted the other day, when, as he was about to take off on a flight in Eastern Canada, he made a most careful preliminary inspection of the plane that was to bear him. He checked the wires, rigging, wings and tail parts and listened to the hum of the motor. To those who twitted him, he made a remark that deserves a good deal of attention. "I'm not fussy about being the world's smartest pilot. I just want to be the oldest one."

Here is an epigrammatic utterance deserving of the notice, not only of airmen but of motorists and others who have anything to do with machinery. The accident list would be materially reduced if everyone took the precaution of satisfying themselves, before applying the power, that their machines were in first-class shape. Longevity has its attractions notwithstanding the considerable passion for speed and daring—Regina Leader-Post.

Will Not Be Eclipsed

The Eiffel Tower in Paris apparently does not intend to be eclipsed by the completion of the Empire State Building in New York. It is receiving, a coat of yellow paint, which makes it more than ever the dominant feature of the Parisian landscape. What it may lack in height as compared with New York's latest skyscraper it intends to make up in brightness.

Magistrate (to woman involved in an unhappy matrimonial dispute): Did you and your husband quarrel on Friday night?

Wife: What! And the next day pay day? Certainly not!

"Mother, is it true that a camel can work for a week without drinking?"

"Yes. And your father can drink for a week without working!"—Moustique, Charleroi.

W. N. U. 1900

Menace To Aviation's Future

President Of Aeronautical Federation Deplores Stunt Flights Across Atlantic

Trans-Atlantic flights of the haphazard variety are a menace to aviation's future, according to Prince Georges Buesaco, Aeronautical Federation president.

"I protest against flights which do not serve the cause of aviation," said the Prince. "Only properly prepared long-distance flights by duly qualified pilots using suitably equipped machines can be of value to the future of aviation," he added, deploring "stunt" flights "by people who often have less common sense than a chicken."

"As President of the Federation," he continued, "my only idea is to protect aviation." Asked if trans-Atlantic flights could be of any value to aviation he replied in the affirmative; but, he said, "they must have a co-efficient of safety suitable to the radius of action and far above the usual. If proper security is insured and the machines are equipped to fly the distance required, trans-Atlantic flights can be of incalculable value."

JUST TAKE A PEEF IN THE SHOP AT THE ATTRACTIVE NEW COTTONS

It has so much snap, and it's so easy to make and to wear.

It was originally in a tub silk—skipper blue dotted in white.

It has two collars! The capelet covers the arms sufficiently to take the place of sleeves, and contributes its bit toward femininity. The scarf collar in matching tone of the ground of the print with decorative ends in red carries out the smart idea of tricolors.

The pointed treatment is slimming. Style No. 248 is designed for sizes 16, 18, 20 years, 36, 38, 40 and 42 inches bust. The 36-inch size requires 3 1/2 yards of 35-inch material with 3/4 yard of 35-inch light and 1/4 yard of 18-inch dark contrasting and 3 3/4 yards of binding.

Plain crepe silk, eyelet batiste, chiffon prints, batiste prints, linen, and rayon novelties are only a few of the many smart fabrics.

Price of pattern 25 cents in stamps or coin (coin is preferred). Wrap coin carefully.

May, Make Shipments Of Cattle Monthly

Reservations Being Made With Council Of Western Beef Producers

Additional ocean accommodation recently made available to them will permit the Council of Western Beef Producers, with headquarters in Calgary, to ship edible cattle to the British market in every month between now and January, 1932. Reservations have already been made by one rancher for space in the latter month, and many others are making their plans to forward their cattle under the auspices of the Council later this season.

Sixty head of light animals left Lethbridge recently for Glasgow, via Quebec, while 160 head of heavies went from Bowden, Lethbridge, Camrose, and Toolid areas for shipment overseas. These will about clean up the feed cattle controlled by the Council in this district, and subsequent shipments will be of grass-fed animals.

To Ensure Fair Profit

Feed Must Be Included In Price Asked For Lambs

An average spread of \$1.54 between the cost of feeder lambs and the price at which they sell is necessary for profit, according to a table of production costs appearing in the current issue of the Economic Annalist, official organ of the agricultural economics branch of the Department of Agriculture. These figures were obtained from a close study of conditions reported by 16 representative feeders in southern Alberta. The two most efficient of this group of feeders kept operating costs down to 38 cents per head, while the two least efficient showed a spread of \$2.64 per head. For the average feeder to make a profit he must sell his lambs at not less than \$1.54 per head over their cost to him as feeders.

World's Largest Steer

Weights 3,300 Pounds and Measures Over 10 feet in Length

"Wonder" is the largest steer in the world. Lean, he weighs 3,300 pounds, and his owner, E. E. Huffman, believes that he can fatten him so that he will weigh 4,000 pounds. "Wonder" is seven years old and was born on the ranch of Ralph Clum, near Burwell, Neb. From the tip of his nose to the tip of his tail the steer measures 10 feet eight inches.

Weekly Cattle Shipments

Southern Alberta Co-Operative Plan Regular Overseas Shipments

It is planned by the Southern Alberta Co-Operative to move overseas 50 to 60 head of cattle weekly from the Lethbridge district and arrangements for this summer are being made with the steamship companies. Growers are putting their cattle for export on sweet clover pasture and chopped grain rations which will put them in splendid shape for the trade.

Winnipeg's Industrial Progress

Col. John B. Reynolds, vice-president of the Middle West Utilities Company of Chicago, states that Winnipeg's industrial progress has been noted in commercial centres of the United States. He congratulates Winnipeg on its method of organizing its facilities for development.

FORCED DOWN

Laura Ingalls (above) diminutive but widely-known airwoman, who was forced down by storms while on a proposed one-stop trans-continental flight from California to New York. Miss Ingalls is expected to hop off as soon as weather permits, on a solo hop to Europe.

Search Finally Rewarded

Eggs Of Harris Sparrow Found North Of Churchill

Discovery of the eggs of the Harris Sparrow, the last North American bird whose eggs have remained unknown to science despite searches over more than a century, has been made by Dr. George Sutton, a Pittsburgh ornithologist, who has returned from ice-covered wastes on the western shore of Hudson Bay.

Dr. Sutton's discovery came as the climax of a race with a group of scientists of the Canadian Ornithological Society, while both expeditions were camped less than a mile apart. For nearly three weeks the groups raced to be the first to find the last link in the chain of more than 1,200 known birds of this continent.

The eggs, smaller than those of robins, pale green, with mottled brown markings, will be presented to Carnegie Institute. They were found in a rhododendron-like bush near the ice, 40 miles north of Churchill, Man., on June 16.

The expedition spent two months in the Arctic, collecting birds, plants and insects. Its members, besides Messrs. Sutton and Semple, were Bert Lloyd, Saskatchewan ornithologist, and Olin S. Pettigill, photographer, of Bondon College.

Gathered Up Some Gold

Chinese Miner In B.C. Had An Exciting Experience

Carried three-quarters of a mile when he fell head first into a mine with a fifteen-mile current at the Lowhee Hydraulic, Barkerville, Ah Fat, Chinese miner, had a narrow escape into the tailings at the end of the mine.

Probing a deep wound over one eye in the hospital at Quesnell, B.C. later, Dr. R. G. Baker, removed a quantity of gold-bearing black sand and a fair sized nugget embedded there when the face of the Chinese struck the rifles at the bottom of the mine. His body was literally covered with abrasions.

"Eatium too mucuee water," was his only comment to the doctor.

There was once a man so good at languages that he could translate the American dialect as it came in over the radio.

To make cellars more attractive, heating engineers are now making furnaces in pastel shades.

Alberta Society Of Artists Is Formed With Object Of Raising Standard Of Art In Province

Method Was Simple

Invention Of Dr. Babcock Revolutionized The Dairy Industry

Dr. S. M. Babcock, whose invention 41 years ago of a simple way of finding the amount of butterfat in milk revolutionized the whole dairy industry, is dead. He was 85 years of age but had been still working away on various research problems at his private laboratory at Madison, Wis., where he had been almost a recluse for many years.

Born and schooled in New York State he joined the staff of the University of Wisconsin in 1887 and the first announcement of his invention came three years later.

Its importance lay in the fact that it brought full value for the product of his herds to the farmer who kept high grade stock, whereas formerly he had received from the creamery no better price than had been given the seller of an equal quantity of milk of low content. It also protected the manufacturing end of the dairy interests in that it made adulteration or watering of milk by dishonest farmers easy of detection.

Dr. Babcock's method, like many another important discovery, was the embodiment of simplicity. Under it today a given amount of milk is sampled from the produce of a farm, poured into a graduated beaker or test tube, an equal amount of sulphuric acid is added, and within a few minutes the butter fat has come to the top with its amount indicated by the standard markings on the tube. Another benefit of this discovery was the improvement in dairy stocks which it made certain. It became easy for the farmer to determine whether a given cow should be retained in the herd as a money-maker and mother of future income, or sent to the butcher.

Value Of The Newspaper

Use Of The Columns Of The Local Paper Best Aid To Business

The director of a well known mercantile establishment describes the local newspaper as "our best clerk." He explains that it sees more people, gets more of their individual time, works longer hours, and tells its story with more accuracy than any other clerk they can employ. These papers are going into the homes of people, and are assured of their friendly attention. This is proved by the tremendous growth in importance of the press in the last few years, according to the director, who declares that today the local newspaper is the backbone of any constructive sales effort.

Professor Makes Hot Ice

"Hot ice" is the product of an amazing scientific experiment recently made by Prof. F. W. Bridgman of Harvard University. With a machine that exerts a pressure of 600,000 pounds to the square inch, Prof. Bridgman makes "ice" that is as hot as a cup of steaming coffee, and boils eggs by compressing them. In Prof. Bridgman's machine hardened steel flows like putty.

A machine that cuts wood into matches turns out 400,000 splints a minute.

Worried by crop deterioration and price depression the west has not forgotten art.

Recently a chair of music was established at the University of Saskatchewan and now Alberta has organized a society of artists, with headquarters at Calgary and branches at Edmonton and other points.

Announcement of the formation of the Alberta Society of Artists is made by Dr. W. G. Carpenter, director of the Institute of Technology and Art. No members have been elected as yet, and it is anticipated that only two or three will be named during the first year. Adjudication by eastern Canadian, British or United States experts has been promised for works by aspiring artists.

One of the chief activities of the society will be to organize and assist art clubs and sketch clubs in cities, towns and villages throughout Alberta. Members of the clubs will not necessarily be members or associate members, but the society will sponsor their exhibitions, help with raising prizes, and later organize scholarships for promising students.

It will bring loan exhibitions by Alberta for display not only in larger centres but in the smaller towns. It plans to establish an art gallery and to present exhibitions of amateur and professional work in competitions in art much after the manner followed by musical festival organizers in the realm of music.

"For many years educationists in Alberta have felt that the standards of art should be raised in this province," states Dr. Carpenter. "At the institute we felt that the development of art should be raised in this way by an outstanding and youthful leader—a man whose personality and interpretation could be used as a foundation on which to create an entirely new school as distinctive in character as the Italian, Flemish, English or Dutch schools. We believe that we have such a personality in A. C. Leighton, R.B.A."

Mr. Leighton has been named temporary president of the new Alberta society.

Conference On Grain Production Important Meeting To Be Held In Conjunction With World's Grain Show

The conference on grain-production and marketing, to be held in conjunction with the World's Grain Exhibition in Regina next summer, may well "prove to be the most valuable and ultimately the most important part of this world event," stated H. S. Fry, Saskatchewan Wheat Pool Publicity Director, addressing the opening session of the annual convention of the Canadian Weekly Newspapers Association. He mentioned that a programme of the various conference sessions is being prepared under the chairmanship of Dr. J. H. Griesdale, Deputy Minister of Agriculture at Ottawa.

How He Understood It

A young lad of six years got to pondering about Biblical matters recently and came to his mother to ask her exactly why Christ was killed. She happened, however, to be busy at the moment; moreover, she didn't want to get him embroiled in philosophical affairs too early in life. "He was killed," she explained, because the people didn't understand Him," and thought she'd got away with the thing rather neatly—until a day or so later. Then she came upon him in the nursery, solemnly explaining to a playmate that Christ was killed because He couldn't speak English.

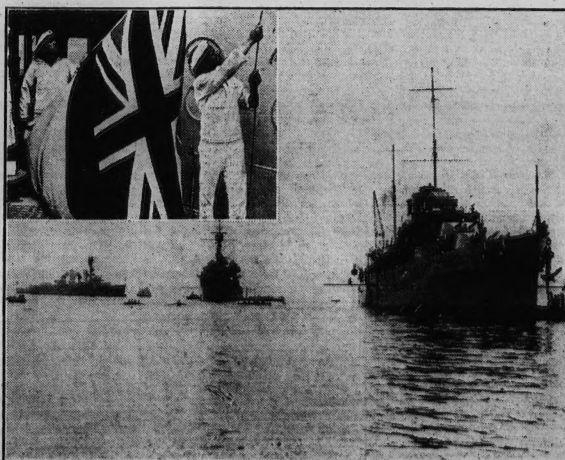

First Place In Butter Exhibit

Out of seventy-five competitors, the largest exhibit ever made, Manitoba took first place in the butter exhibit at the recent Brandon Fair.

"Ah, now I have again forgotten what it was I remembered that I had forgotten."—Kasper, Stockholm.

BRITISH FLEET VISITS GERMAN HARBOUR

For the first time since the Great War the British Fleet paid a visit to Kiel Harbour, Germany, and was enthusiastically received. The main picture shows the new British cruiser "Norfolk," nearest camera, at right, at her moorings with the German ships, "Koenigsberg" and "Karlsruhe," on the left. Inset shows the hoisting of the British Ensign on the "Schleswig Holstein" by German sailors in honour of the British Fleet's visit.

THE MAIL BOX.

A BRITISH VIEW OF
RUSSIAN COMMUNISM

SMASH IT! OR IT WILL SMASH US.

(In the London Daily Mail.)

This is an article designed to make your flesh creep. The more it creeps the better for the future of Britain. Sitting at a dinner table for two somewhere in London I discussed with a considerable personage the outstanding political question of the day, which, in his opinion and in mine, is Russia.

What the nationality or the calling of the personage is does not matter. It is sufficient to say that he is well placed to take what one may call a mountain summit view of Bolshevism and its possible effects on the possible future of us all.

"Some people in England," he was saying, "have shown a certain indignation about a few thousand barrels of dumped butter, a few thousand tons of dumped wheat, or timber."

"But indignation is not enough. If you are indignant with a footpad it merely provides him with a pleasant topic to his villainy. The only way to make the criminally minded respect you is to deal with them with all the rigour in your power."

A Sleeping World

"The world has not yet begun to grasp the reality of this Bolshevist attack on civilization. It is sleeping, grandiose."

"Here and there an individual has some real conception of what it may mean. But for the most part the world is sleeping."

"If it is possible to admire the assassin, if there is any virtue in being the perfect confidence trickster, then we must admire the relatively few men who are now organizing 150 millions of deluded people to assassinate the rest of the world. We must admire them for their colossal insolence. They are doing it under our noses. We watch them making all plans, for instance. Yet the world remains almost unmoved."

"Here in England I find people indifferent, even sympathetic. People of a type one would never dream could be so blind, so stupid. How do you account for that?"

The Crank Mind

"It is the crank mind," I replied, "and that nobody can account for. The crank mind defeats all argument, all dog, all facts. These people are political perverses. They smile at you pityingly if you mention the Russian record of massacre. But they would shriek with anger and dismay if a London policeman put his boot behind them, just because he felt like it. That would be a gross tyranny."

"That is so. And you find these political perverses in all countries. But the people I am most concerned about now are the great mass of ordinary, normal people, who have not yet awakened to what the future holds for them if we don't bestir ourselves. They have no conception of the magnitude of the danger that menaces them. It is time somebody tried to awaken them."

"This thing must be thought of in terms even bigger than those of the Great War. This is a world war, and in varying degrees it is going on all the time, everywhere, from China to Alaska. And what we have seen so far are the merest preliminary skirmishes."

"It is a war that is not being waged with bayonets, yet. Ideas are doing it. They are insane ideas. They laugh at all decency and honor. They

exalt a code of morals between nations which not even a pickpocket would apply to his friends. They exalt the diplomacy of the ape, the cave man. But we see how powerful they are."

The Wreckers

"This Five-Year Plan, for instance. It is not for Russia's affair alone if it were merely designed to galvanize an inert, semi-barbaric nation into one highly industrialized, proposing to compete in the world's markets according to the accepted code—more or less."

"But the whole purpose of the Five Year Plan is to wreck the rest of the world. It is not for Russia, but against us. It can only be thought of because a vast, mutton-headed population can be whipped into slavery by these modern Pharaohs."

"Take this preliminary dumping—butter, wheat, timber, and so on. These operations are merely pretexts. They are small laboratory experiments; trench raids, if you like, to teach them how to conduct mass attacks later."

"Did you hear of their eau-de-Cologne experiment? Russia dumped eau-de-Cologne, even into Germany, at prices which ruined some of the smaller distillers, and left some of the leading firms badly shaken. Having caused complete local disruption, Russian interest in the eau-de-Cologne market evaporated. It was an experiment."

"They had for a time overthrown a market by what we may call a very small swing of the trade pendulum. They learned by it. So they are learning by similar dumping raids on England. The day will come—if we let it—when they will swing the pendulum violently, and markets will come crashing down."

Action Needed

"When they are really ready for our destruction tariff walls will not count. They will throw their goods in at no price at all. If necessary, they will invade markets, not to capture them, but to destroy them. Money, as we think of it, means nothing to them in such operations. They are out to smash. Their people are being starved and dragooned to destroy us."

"The world will only save itself if we think as boldly as they are thinking in attack. All this, by the way, has little to do with the world trade depression. It is as though a trader whose business is bad, anyhow, has to operate in a bandit-infested country. This will be the banditry of 150 million people organized for nothing else."

"Indignation over all this is merely a waste of nervous force. Action, combined action, is needed. The nations will have to combine to prevent themselves from being overwhelmed by the most subtly dangerous attack on civilization in the world's history."

"It is useless for the leaders of the Churches to address mass meetings at the Albert Hall because the Soviets wipe out religion, or wipe out Christians. You might as well approach Al Capone for having a guy bumped off. To them an indignant bishop is not even a figure of contempt. He is nothing. We are dealing with people who are drunk with a cruel idea, who are ruthless, who have the mentality of the crook. A crook State. And we send finished diplomats to deal with them. The British Ambassador at Moscow dines out officially, and finds his own Embassy's stolen plate gracing the table. Could anything surpass that? And this is in a country which has recently stolen the Lena goldfields, a British enterprise worth \$13,000,000."

"When the British Foreign Secretary had a secret conference with a Soviet envoy in an old-fashioned Sussex hotel he ought to have felt that

Bruce News.

The August meeting of the Bruce Women's Institute will be held on Thursday, August 6th. All ladies invited.

The Board of the Bruce United Church have an interesting document in their possession. In 1917 a loan was made by the Presbyterian Church to the Board of the then Bruce Presbyterian Church of \$175, to complete purchase of a school building for church purposes. The Bruce Church not being very prosperous, for some years had all they could do to pay their share of the minister's salary and were able to do little more than meet the interest on this loan. Thru the combined efforts of the Board, and the Ladies Aid this has recently been paid in full, and the original agreement surrendered to the Board. The agreement is interesting in the fact that it carried the signatures of those who made the present Bruce United Church possible. Two of these men have left the district, but two are still with us. The signatures of the guarantors on the document are Lorne E. Kennedy, Wm. Cross, C. A. Ham and Chas. Stewart.

Rev. H. Bosworth conducted service in the United Church Sunday afternoon at 2 o'clock before an attentive congregation.

Taking his text from the Book of Esther 4:14, the pastor preached on Peace, drawing an analogy between Esther and Canada at "such a time as this."

The Bruce Free Methodist Church will shortly have a new minister. Rev. Carmichael of Calgary has been chosen for the Bruce appointment, and is expected to be here in a few days.

The Women's Institute express satisfaction in the return from the quilt raffled at the Stampede dance, and are unanimous in giving their president, Mrs. Tom Holdsworth, credit for the success of the venture.

Mrs. Thos. Dick and family of Alliance are guests at the home of Mrs. Chas. Graumke.

Allen Bradley of Edmonton was the guest of Ina Holter for a week. Now on his return, the guest of Mr. and Mrs. Bradley.

Miss Gladys Webb was the guest of Miss Evelyn Stambaugh last week. Miss Virginia Kathon of Roundhill and Miss Margaret Patterson of Irma were the guests of Miss S. Margaret Hargrave last week and were visitors at the Bruce Stampede.

Miss Margaret Ham is visiting Mr. and Mrs. Bart Kathon of Roundhill. Mr. and Mrs. Wilson, parents of R. J. Wilson, are visitors at his home.

The Searle Grain Company's Elevator (formerly the Home Grain Co.) is reemplished in a new coat of paint.

A bad hail storm is reported five miles north of Bruce Sunday night.

Miss Grace Eastley of Sedgewick was the guest last week of Mr. and Mrs. Jack Parfett. Miss Eastley took home with her a shovel. This particular shovel started out to see life about a year and a half ago. It has since had a wide acquaintance with trails leading south that it ought to be able to find its way home alone.

he had been in contact with pollution.

Apparently that didn't occur to Uncle Arthur Henderson.

"Politics," I said. "In its name men will do anything."

"True. But one can be a Socialist and yet not seek the company of crooks?"

"We must combine or be overwhelmed. Twelve apostles spread Christianity through the old world. The apostles of Bolshevism can be counted by the hundred thousand, and they are preaching what amounts to a religion—a ghastly religion—without any spirituality. You find people babbling it even in Mayfair. Weird young men have been to Oxford, earnest young women who think they know. They would loathe a man who kicked a dog. They think it intellectual to be disciples of the insolent crooks who sit in Moscow."

"There must be international prohibition—absolute prohibition of everything that comes out of Russia. They are set to blow us up. We must strangle them. Russia's gods must be regarded as pollution."

"Sooner or later we shall have to blockade them industrially. We are threatened by an entirely new conception of trade war. We can meet it only by means just as bold and ruthless."

"We must awaken the peoples to the enormity of what threatens us. That is the word. The enormity of permitting a crook State calmly to plot our destruction. It is the old story of the barbarian hordes from the north. Do you think the peoples can be awakened to the danger of it?"

"We can try," I said. "Bolshevism may be too soft in the heart, but I don't think she is yet entirely soft in the head."

Anyhow, there's the situation; the swift growing of a menace that will certainly smash us if we don't smash it.

VIKING

Potato bugs have made their appearance in this district this summer. This is one kind of bug that has been very very bad in this district at least, but is showing up here and there in the gardens. E. W. Johns brought in a tin can full to show us, the other day, and they were the "real McKoy" like we used to pick by the pail full back in the days of real sport at Milaca, Minnesota. Lar Kelly tells us that the bugs are not so uncommon in the gardens around town this year, but we hadn't heard of any until Mr. Johns brought in the real article. It is hoped that the humble potato bug won't find a permanent home in our fair province.

The funeral of Pte. W. Brown 904508, who died on Wednesday, July 22nd at the local hospital was held on Friday afternoon at two o'clock at the Hennessy undertaking parlors. The service was conducted by the Rev. A. Loyd-Bee, rector of the Anglican parish church. The Viking branch of the Canadian Legion had charge of the funeral arrangements, six members of the local Legion acted as pall bearers, interment taking place in the Veterans plot in the Viking cemetery.

The young man was 32 years of age and was a member of the C. F. C. during the war. Little was known of him locally. He had been employed by the H. S. Jensen farm for some time, where he was taken suddenly ill and rushed to the hospital for medical attention but did not recover.

Viking Beach at Lake Thomas proved a very popular place over the week end. Motor parties from Bruce, Holden, Phillips, Viking and Wainwright enjoyed the balmy breezes. Wainwright brought up men's and ladies' soft ball teams and played teams from the Viking. The Wainwright men's team defeated the local team by the score of 10 to 11, the winning counter coming in the last inning. The ladies played only three innings when threatening clouds and a high wind put an end to the contest. Wainwright led by the score of 5 to 4 at this stage of the game.

Included in the Wainwright ladies team were Grace Welch, Violet Taylor, Beatrice McKay, Alice R. Nagel, Lo's McKay, Mrs. Brunker, B. Coffield, W. Bisson, Polly Bibby, Mrs. Stevens, Bessie Atch, and Helen Gloppe. The Viking ladies team consisted of Mrs. Broughton, Mrs. Dooley, Mrs. Dupre, Mrs. Wm. Brown, Mrs. Tonne, Mrs. Miller, Mrs. A. Horton, Gladys Harris, Dorothy Sheets, and Esther Wick. The Viking ladies were hosts to the Wainwright players at a dinner held in the Viking Cafe which was highly enjoyed by all.

Other visitors from Wainwright were Chas. Wittmann, Ken Tory, G. Stewart, J. A. Kelly, H. S. Beveridge, C. W. Walton, H. Renville, C. Wilkins, A. Alderman, J. Alderman, Mr. and Mrs. Gene Tolly, Lillius Tolly, Audrey Tolly, Muriel Wittmann, and E. Michon.

Members of the Viking and District Chamber of Commerce held their regular meeting in the town hall Monday evening at 8.30 o'clock. In the absence of the president and vice-president, W. McAthey acted as chairman. Minutes of the previous meeting were read and approved.

Correspondence was read from the provincial parks board, postmaster general, minister of health, Searle Grain Co., poultry commissioner, and Chauvin Board of Trade.

The secretary was instructed to write the Viking hospital board if anything had been done to abate the sink nuisance as per letter from the provincial department of health.

The following resolution by the Chauvin Board of Trade was endorsed:

Resolution of Chauvin

District Board of Trade

Whereas the Dominion Government for the relief of unemployed and for convenience to motor transportation have a proposed undertaking of a Coast to Coast Highway and whereas the location of the Alberta, Saskatchewan section of same requires careful consideration, be it resolved that we after carefully weighing any apparent engineering difficulties and considering tourist traffic, do recommend to your consideration—Following more or less the course of Number

14 highway from Saskatoon to Unity, Saskatchewan, and from there west to Wainwright, a distance of about 85 miles through a park country paralleling the South side of the Canadian National Railway. Company's right of way. In addition to this being a beautifully red section of country the road would skirt the edge of Manitou Lake (some 20 miles long), Salt Lake, (6 miles long), a series of smaller lakes and beauty spots, past many oil derricks and on through by the very edge of Canada's National Park at Wainwright. This paralleling of the Right of Way would save building and maintaining 27 miles of road which would many times compensate for the purchase of the 640 acres of cheap land for the road bed.

A letter from the Salmon Arm, B.C.

Chamber of Commerce was read in regard to the proposed cancellation of the 8th Class Freight rate on bulk apples. A motion was passed that the Viking Chamber of Commerce support the application of the B. C. cooperative fruit growers to retain the sun-dried rate on bulk apples shipped from the B.C. orchards.

The Secretary was instructed to write the director of the extension department of the University re visit of Dr. Wallace president of the University, to include if possible Viking in his fall itinerary.

Mr. and Mrs. A. Bullis and daughter Miss Edna Bullis, from Ottawa City and Miss Ruby Aitken from Carleton Place, Ontario, who are motoring from these places to interesting places in the West as far as the Coast, visited at the P. Syme home last week. Mr. A. Bullis and Miss Ruby Aitken are sisters of Mrs. P. Syme of Viking.

Word has been received that Chrysler Hilliker has passed his second year in law at the Detroit School of Law. Chrysler who holds a position in the city has studied during the evenings and has been successful in passing all his subjects.

Of considerable rain fell Saturday evening, Sunday evening and Monday in this district, while no hail is reported to any extent. A strip east of Ryley was hailed out on Sunday. North of town at the Richardson Bros. farm some hail fell Sunday evening. The high wind also tore the roof off one of the dwellings and sheds and also damaged the car standing in the yard.

W. J. Steward, a farmer east of Viking, lies in the hospital with an injured back and bruises as the result of a runaway on his farm last Monday.

Miss Havens, of the Hanna Municipal Hospital nursing staff, has returned to duty following a few week vacation at Viking and other points.

Hanna Herald.

Mr. and Mrs. J. R. Bremner returned to Detroit, Michigan, last Friday after spending a three weeks holiday at the home of Mrs. Bremner's mother, Mrs. M. Harris, ten miles southwest of town.

Misses Murdoch and Gibbs, and Messrs. Bishop and Arnew, motored down from the city and spent the day as guests of Mr. L. C. Ellis, who has charge of the drug store during the absence of Mr. Stock.

Art Horton, Evey Jones and Jack McAthey assisted the Lacoy baseball team in winning the tournament at Mannville sports on July 22nd. Lacoy defeated Minburn 4 to 1; Innisfree 7 to 6; and Ranfurly 10 to 9.

Born to Mr. and Mrs. John Paul at the Viking hospital on Friday, July 24th, a son.

Camrose won the baseball tournament at the Camrose fair last week from Ponoka by the score of 2 to 1.

Mrs. J. Goodwin and two children, and Mrs. Campbell of Edmonton are at Gull Lake for a few days.

Miss Bertha McHenry was called to Lacoy last week on account of the serious illness of her father who resides there.

Rutherglen won the football match from Camp Lake on the fair grounds here last Saturday evening by the score of 2 to 0.

Mrs. Lightfoot and son Robert left Monday morning for other points in the West, visiting her daughter Mrs. Albert Barker for three weeks.

A carload of Pontiacs and Chevrolet cars was unloaded here on Tuesday for dealers at Vegreville, Bashaw, Provost and Viking.

WEEK END FARES

CONTINUED BY RAILWAYS

Reduced week-end fares, good on all trains between all stations in Canada, introduced this year by Canadian railways as an experimental measure, will be continued in effect until October 31st. Under this arrangement, return tickets are issued, at the rate of one and a quarter times the ordinary one way fare, the going portion good on all trains leaving after noon Friday and returning on all trains leaving up to midnight on the following Monday. The provision of these reduced fares has improved the facilities for week end travel in all parts of the Dominion and has provided cheaper week end outings between city and country areas and vice versa.

The reduced fares were first placed in effect during May, June and July, with a view of stimulating week end travel and making these journeys between points in Canada easier and more economical.

In view of the loss of life that occurs every year in the lakes and rivers of this province it would seem that some sort of law should be enacted requiring that life preservers must be provided at all lake resorts, in row boats and motor boats. This is the rule on the ocean and why not on our lakes and rivers that are used for bathing and swimming. There have been several drownings recorded this month in Alberta which could have been avoided had some sort of life saving apparatus been handy.

Fourteenth Annual Bruce Stampede Proves Itself a Real Picture of Old West

The 14th Annual Bruce Stampede came off with a flourish and a bang. Good weather, though hot, and an overflow of good spirits and good will, all helped to make this yearly revival of a bit of the Old West a first-rate entertainment and a financial success. Bruce folks are well pleased with the performance provided, prize-winners expressed satisfaction with the prizes awarded this year on the basis of a percentage of gate receipts, and the Stampede Directors are delighted with the success of their enterprise and the substantial monetary return.

The Vegreville Elks Band turned out in full force and led the way to the stampede grounds followed by spectators raving in numbers those of previous years. The only item not distinctly successful was the "hot-dog" stand. The day was too hot for weiners and mustard to be in demand, so the doggies growled their way to the how-woos. Ice cream, candy, pink lemonade and pop, all found ready sale.

Of all Stampede events the Bucking Horse contest holds first place. Those judged best riders were, in order of merit, L. Meyers, Bud Sizer, L. Condule and George Elder. In the "Boss Rope" contest, George Elder came first, and Bert Siegel a close second. The honors in Calf Roping were equally divided between Louis Ritland, W. Mathews and Lars Ritland.

When it came to milking the wild cow, (a popular Bruce sport) D. McD. McLeod pulled off a surprise when he proved himself to be the best milk maid present, while R. Harkness made bossy perform to the tune of second place.

Horse races as usual proved popular. In the Free-for-All Track, Raymond Armstrong carried off first money, E. Smith came second and Lars Ritland won third place. In the Relay Race, Lars Ritland showed some snappy work and took the honors. The Ladies Race was won by Miss Victoria Mathews. In the Pony Race, Jack Good captured first prize and Jack Bowman second.

Another stampede event which deserves mention, was the clowns. Two wise men came out of the west in that role, and had the business of clowning all to themselves. A greasy pig was turned loose for all comers. A pig can be a pretty smooth customer without grease, but when well lubricated and chased about in the hot sun it becomes, well slippery. After most of the grease had been transferred from the porker to the audience, the clowns walked away with the pig. The clowns being an extra number received money prizes of \$3.00 each, and were awarded the pig. But that is not the end of the story. Just when things were looking pretty good to the clowns, somebody stole their bacon. The pig disappeared and has not been seen since. Two A.P.P. constables were present, a tall one and one taller; but perhaps they were not in the humor to follow the trail of a greasy pig!

Bob Coleman won a load of coal in the guessing contest. The load weighed 2536 pounds. Bob's guess was 2535.

The Bruce Junior Basketball team, fresh from their victory over Leduc at the Edmonton Exhibition were again the conquering heroes. They kept first money in Basketball at home, when they played a close game with the visitors from Morinville, registering a score of 23-21. Stimulated by success, in the second game they took the skids under East Bruce with the score of 33 to 8. Now they can lick anything.

A plane did a steady passenger business all afternoon, using the farm of J. W. Stambaugh, south of the railway, for a landing field. A good many farmers enjoyed the novelty of viewing their crops from the air.

At night, the Stampede Dance was an unqualified success. The capacity of the Bruce Hall was taxed to its utmost, leaving just room enough to shuffle around. The ladies of the Women's Institute took advantage of the occasion and raffled a quilt of their own creation. The resulting proceeds, about \$25.00, are being invested in dishes for use of the ladies in the community kitchen.

"Have you ever done anything on time in your life?" asked a local business man of an employee that has a habit of showing up late on the job. "Yes," was the reply, "I bought a car on time once."

"Oh, I wish the Lord had made me a man," remarked a flapper at the dance. "He did," replied the local fellow, "and I am the man."

CHANGE IN WHEAT POOL POLICY

Following a meeting of the delegates of the Alberta Wheat Pool the Board of Directors announce a modification of the growers' contract and a new policy of operation effective from July 16th, 1931, to the end of the present contract covering the marketing of the crops of 1931 and 1932.

Every Pool member will be given the option:—
(1.) Of delivering his wheat on Pool basis, accepting the prevailing initial payment, and participating in any future payments which may accrue from the pooling thereof; or

(2.) Of disposing of his grain under any of the methods provided by the Canada Grain Act and obtaining full current market price for same. Any portion of a member's grain may be pooled or any portion sold outright for cash.

The new policy comes into effect immediately and members are now at liberty to select the above-mentioned options for the disposal of any grain from the 1930 crop which has not already been marketed, as well as for the new crop.

The adoption of this policy means that the Alberta Pool, as an association, forgoes its right under the contract to insist that the member deliver all or any portion of his wheat on a pooling basis, at the same time enabling him to have all his grain handled through his own facilities and to pool any portion of his wheat he may see fit to pool.

Definite assurance is given that no deduction for elevator reserve, commercial reserve, or for re-payment to apply on the 1929 over-payment will be taken from the proceeds of any wheat delivered by Pool members either for pooling or for immediate sale during the 1931 crop year. Satisfactory arrangements have been agreed upon with the Government of Alberta for the repayment over a period of years of the 1929 over-payment. This makes it possible for the Alberta Pool to carry on this year without taking deductions for same from the 1931 crop.

The extremely low price of grain together with the urgent need for cash throughout the country makes it imperative that the grower get every possible cent for his product, hence the decision not to take deductions.

The desirability of growers delivering every possible bushel of grain to Pool elevators is emphasized in view of the fact that members have invested over eight million dollars in these facilities and have built up an efficient elevator system. In order to secure full advantage of the earning capacity of this system, it becomes necessary to pass through it the largest possible volume of grain. The policy of service under which the Alberta Pool elevator system is operated eliminates any possibility of excessive revenue which might be collected were the system operated for profit. It will be obvious that the greater the volume handled through Pool elevators the smaller the cost per bushel.

The Coarse Grains Pool will not be operated this year but coarse grains will be handled by the Pool elevator system on a commercial basis, full cash payment being made for same as during the past year.

DIOCESAN CONVENTION AT WAINWRIGHT

OCTOBER 16th to 18th
Mrs. James McElhone, diocesan president of the C. W. L., has announced that Wainwright, Alta., has been selected for the scene of the 10th diocesan convention of the C.W.L., to be held this fall. October 16th to 18th are the tentative dates of the convention.

Definite arrangements will not be announced until after the next meeting of the Diocesan Executive.

Wainwright is a lovely town and has every facility required for convention purposes. The business section of the town has been completely restored, and it now possesses one of the finest and best hotels in the province. Its proximity to the National Buffalo Park and oil wells will add much to the interest and enjoyment of delegates and visitors.

The president also expressed gratitude for the cordial invitation of members of Wainwright subdivision who will be hostesses of the convention.

"Do you understand the nature of an oath?" asked a judge of a lady witness during the court session at Vegreville. "Well, my husband is a golfer and my son drives a second hand car," she replied.

Here and There

The zoo at Toledo, Ohio, has secured a mammoth sturgeon, captured in Lake St. Clair, Canada. The fish weighed 233 pounds and was sold to Toledo for \$100.

Feeding bees on sugar and milk at the Government Experimental Farm at Agassiz, B.C., has resulted in an average of 23 pounds more honey than on ordinary diet. This may mean a further impetus to Canadian honey production.

Capital amounting to \$600,000,000 is invested in the development of 13,000,000 horse power electrical energy in the province of Quebec. Throughout Canada electric power development investments total \$1,400,000,000.

East and west of Suez-as also in London, Berlin, Paris and other famous centres, canned and frozen salmon from British Columbia was successfully marketed last year. Most of the shipments went from Victoria.

Monday, August 10, has been officially designated the opening of the fourth "Buyers' Week" to be held in Montreal. The first Buyers' Week brought 251 buyers from all over the continent to Montreal; the third brought 1,100 buyers, indicating the growing success of the plan.

Individual holders of Canadian Pacific Railway common stock numbered 21,186 on September 2, 1930, and by the 1st June, 1931, there were 34,372 holders, an increase of 13,586. This shows the growing popularity of this stock since its split into four new shares for one of the old stock.

Unity of all peoples who live on the shores of the Pacific was the object behind the recent visit to British Columbia and Alaska of the Portland, Ore., Chamber of Commerce who took a seven-day cruise on board Canadian Pacific steamer Princess Charlotte in northern waters.

Completing a coast-to-coast holiday trip Vincent Duncanson, son of Canada's Governor-General, the Earl of Beaulieu, and his family, arrived in Vancouver over Canadian Pacific Lines from the east recently. They went on to a six-day trip of British Columbia waters aboard S.S. Princess Maquina.

Ladies evidently also prefer blondes, judging by the decision of the Alpha Delta Pi sorority who elected Miss Margaret Jensen, blonde beauty of Hunter College, New York, as the sisterhood's most beautiful bathing girl at the convention recently held at the Chateau Lake Louise, in the heart of the Canadian Rockies.

Effective July 1, the Toronto Terminal division of the Canadian Pacific Railway was merged with the Bruce division of the company, the combined divisions being known as the Bruce division. R. W. Scott was appointed superintendent with headquarters at Toronto.

Visiting the Canadian Rockies for the second time in forty years, Colonel R. Stanley, of Alverston, England, said he was astounded at the progress and development attained in that comparatively short period. He was a guest at the Banff Springs Hotel, which was not even thought of when he was here last as a guest of Lord Strathcona. (763)

Alberta led the western provinces in the number of successful farm placements made in 1929 by the Canada Colonization Association when a total of 427 families were settled on 50,803 acres, said W. R. Dick, superintendent of land settlement for the province, at a meeting in Calgary recently.

The first of the Canadian Pacific Railway broadcasting took place February 21 over CKAC from Montreal and CKGW from Toronto, and will be repeated every Friday thereafter. These stations were linked over Canadian Pacific telegraph wires and the use of technical improvements brought into use for the first time. Running from 10 to 11 on the nights of broadcasting the concert will be made up of light symphony orchestral pieces and renderings of light and ballad opera music. The services will be built up to the slogan of "Cheerful and Good" and the orchestra will be under the leadership of Rex Battle, a conductor whose brilliant work has won wide popularity. Sea chanty music and French-Canadian and other folk songs will also be featured.

Appointment of L. C. McQuat, one of the Dominion's leading agriculturalists, as general agricultural agent of the Canadian Pacific Railway, announced recently, is further evidence of the railway's interest in the development of Canada. Mr. McQuat, with his 15 years' experience in agricultural and livestock affairs and enjoys the distinction of having represented Canada on an Imperial committee to study the meat supply of the British Empire.

Shriners making the Royal York Hotel, Toronto, their Mecca next June for their Imperial Council sessions, will find a city ready built and equipped for 5,000 people at their service. The Canadian Pacific Railway are now building "Fox City" composed of railway sleeping cars and marquees to take the place of administration and service buildings. The new city will closely adjoin the Exhibition grounds where the convention is to be held. It will be divided by "The Main Street" which will be adorned with a motor road to be known as "Rameses Drive." Streets numbered 1st, 2nd, 3rd, etc., will radiate from "Mainway."

(By Gee)

L. H. Newman

WHEN the time arrives to place the awards as set out in the generous cash prize list covering the competitive classes of the World's Grain Exhibition and Conference at Regina in 1932, L. H. Newman, Dominion Cerealist, will have completed the work assigned to him in this organization.

Mr. Newman is the chairman of the Awards Committee, and to him and those associated with him has been given the task of working out different awards, the classification for competitive exhibits and the hundred and one other things relating to competition which will make the 1932 world-wide event a successful undertaking.

Merriekville, Ontario, is the birth place of Mr. Newman. He was educated at the University of Toronto, receiving there a B.S.A. degree. He took special studies at the Iowa State College, the Cambridge University and Savio, Sweden, in plant breeding. From 1905 to 1923 he was secretary of the Canadian Seed Growers' Association, being appointed Dominion Cerealist in 1923.

WORLD HAPPENINGS BRIEFLY TOLD

The mineral output in South Africa in a recent month was valued at nearly \$20,500,000.

There were 26 concentrated milk plants in operation in Canada in 1930, whose value of output totalled \$13,604,743.

British Columbia lumber circles are organizing to take immediate advantage of market extension possibilities thrown open by the new Canadian-Australian trade treaty.

A periscope, designed to fit a man's hat, enabling him to see a hand, should one sneak up behind him, will be shown at the International patent exposition in Chicago.

A small bear, an owl, and 20 quails formed part of the cargo of an air freighter that arrived at Croydon, England, from Paris, France.

An exceptionally fine copy of the first edition of the works of Chaucer, the poet, printed in 1532, was sold for \$11,250 at an auction sale recently. Despite keen bidding from United States dealers the prize was secured by a London dealer.

The gold medal and diploma for creamery butter, in the largest exhibit of its kind ever shown at the Saskatoon Exhibition, went to Manitoba Co-Operative Dairies, Winnipeg, with a score of 193.8.

Two Japanese dailies in Dairen, South Manchuria, the Manshu Nippo and Dairen Shinbun, have started to issue Sunday evening papers in addition to their regular morning and evening papers every day.

It is not at present possible to tell when a policy regarding a proposed Peace River outlet will be enunciated, Hon. R. J. Manion, Minister of Railways and Canals, said in the House of Commons.

Miss Millie Orpen, who was awarded \$25,000 in a suit against a movie theatre, which remained open on Sunday in violation of a blue law, more than a century old, renounced the award and said she never had intended to collect it, but sued only as a test case.

Destroying Arabic Alphabet. Determination is shown by the government of Turkey to stamp out the Arabic alphabet. A special government commission made the rounds of Turkish departments at Angora and burned all books and papers in the taboo characters except a few historical documents.

"I hear you have a brother, doctor," "Yes, and he is the exact opposite of me in every way."

"How nice. I should much like to make his acquaintance!" — Der Gemüthliche Sachse, Leipzig.

W. N. U. 1900

By Annette

YOU'LL LIKE THIS SIMPLE ONE-PIECE HOME FROCK WITH ITS SLENDERIZING LINES.

It's made in a jiffy! Practically only four seams to join! The youthful V-shaped neckline is most becoming. To begin with there is an inset vestee with a softly falling jabot frill and attached collar in deep revers styling. There is still another point, the interesting novel envelope pockets. The removable belt may be worn at line best suited to wearer. Style No. 750 is designed for sizes 16 years, 36, 38, 40, 42, 44, 46, 48 and 50 inches bust. Size 36 requires 2 yards of 39-inch material with 3/4 yard of 35-inch contrasting.

It has many possibilities for contrasting effects. Yellow and white dimity print with plain cocoa brown dimity is individual and smart.

Skipper blue linen with white pin dots and plain white trim is so attractive. Printed lawn, shantung, shirting fabrics and gingham are lovely suggestions.

Price of pattern 25 cents in stamps or coin (coin preferred). Wrap coin carefully.

China's Orphan City

Shanghai Cannot Claim Protection Of Any Single Country

The International Settlement at Shanghai, a community of more than a million people, cannot claim the protection of any single country. As a matter of fact it belongs to nobody and everybody. What will become of it when the treaty powers relinquish their extraterritorial jurisdiction in China? The question appealed to the 40,000 foreign residents of the Settlement, who govern it, as of sufficient importance to warrant them in importing a judge from the supreme court of South Africa to make a survey of their status and recommend a future for their city.

The International Settlement is described by its name. When Shanghai was opened to foreign trade by the British treaty of Nanking in 1842, a district outside of the native city wall was set apart by the Chinese Government, where foreigners might reside "without hindrance or molestation." At first there were two "concessions," a British and a French; and of the British concession there soon sprang up an American colony. Some years later the Americans and British combined their districts and threw them open to all nationalities. The French, who retained their concession, administered it through their consulate-general.

Called variously a "sink of iniquity" and "the model settlement," Shanghai is a tremendously wealthy entrepot of trade between China and the outside world. Surveilling control of it to China in these troublous times would expose it to exploitation and disaster. The course recommended by Judge Featham is to educate the Settlement's native population in the art of municipal self-government, with a view to their eventually taking it over. The judge believes that it will be decades before the enormous investment in this orphan city on the banks of the Whangpoo can safely be entrusted to unrestricted Chinese jurisdiction.

Bound For Hudson Bay

Steamer "Ungava" Leaves Montreal For Annual Cruise In Northern Waters

The steamer "Ungava" left Montreal recently for the annual voyage to Hudson Bay and Baffin Land, including among her company five missionaries, a Royal Canadian Mounted Police officer, an American who will explore the interior of Labrador and several officers of the Hudson's Bay Company, owners of the vessel, who are returning to northern trading posts.

Packed in the spacious hold of the "Ungava" are a variety of supplies and luxuries for the people of far northern outposts. A tally of 22 canoes is included in the cargo. Sheep, pigs and a variety of poultry are also included.

Mining Equipment

Carried By Plane

Diamond Drilling Is Now Under Way In Northwest

New mining history is being written in the northwest. Diamond drilling operations are under way on the shore of Hunter Bay, Great Bear Lake, within ten miles of the Arctic Circle. The property under examination, discovered by Dominion Explorers and Ventures, Ltd., is said to contain a massive body of copper sulphate ore.

More than 27,000 pounds of drill equipment and supplies were flown into Hunter Bay by two pilots and work is proceeding 24 hours a day—because just now the sun doesn't set at all up there.

Canada's Wool Clip

Canada's total wool clip is about 21,000,000 pounds annually, while Canadian mills use at least twice as much as this every year and Canadian consumption of manufactured wools equals about four times the clip. Some butterflies have a strong perfume.

Fast Service, London To China. Opening of the new 7,000-miles combined air-rail service through the heart of Siberia in June has brought London, England, within eight days of Shanghai, China. By the fastest surface transport the journey occupies 89 days. Already the new service is well patronized.

World's Grain Exhibition

All the Canadian provinces will be represented by provincial exhibits in the new building of the World's Grain Exhibition and Conference at Regina in 1932. These will total a space of 11,000 square feet.

Two Italian scientists have found that even silkworms work better to radio music. The waves make them spin more silk, it is said.

Order Of St. John Of Jerusalem

Service Held In Westminster Abbey To Commemorate Centenary Of Revival Of Order

The Duke of Connaught, Grand Prior of the Order, the Duke and Duchess of York, and other members of the Royal Family were present at a service held in Westminster Abbey to commemorate the revival in Great Britain 100 years ago of the work of the Order of the Hospital of St. John of Jerusalem. The centenary address, delivered by the Archbishop of Canterbury, Prelate of the Order, was broadcast throughout the world. The congregation included members of all grades of the Order, and the numerous uniforms added colour to an imposing scene. The band of the Grenadier Guards played before the service began. The men of the Ambulance Divisions of the Order were seated in the South Transept; the women of the Nursing Divisions marched in procession to the same part of the Abbey from the West Door, led by the Duchess of York, their commandant-in-chief, who then took her place in the Sanctuary. There she was joined some minutes later by the Duke of York, in the uniform of the Royal Air Force, Princess Louise, Princess Beatrice, Prince and Princess Arthur of Connaught, Princess Alice, Countess of Athlone, Princess Helena Victoria, and Princess Marie Louise.

At the conclusion of the service the Grand Master of the Order, General, who were saluted in the cloisters by a guard of honour of the Westminster School O.T.C., went to the Great Hall of Westminster School, which had been lent to the Order for the occasion, and there presided over the annual meeting of the Order. The Sub-Prior read messages of congratulation from the Commandery in South Africa and the branches of the Order in Australia and New Zealand, and an address was presented to the Grand Prior from the branch of the Order in Sweden. There was also a message from the Commandery of the Order in Sweden. The Sub-Prior then read a message from Mr. Bennett, the Prime Minister of Canada, announcing that, in view of the good work done by the Order, the Canadian Government had decided to exempt it specially from the scope of the resolution of the Canadian House of Commons, in conformity with which the King has refrained from bestowing any titles or honours upon his Canadian subjects. In consequence of this communitarian, his Majesty had been pleased to issue several Canadian medals with the insignia of various grades in the Order recently at Buckingham Palace—London Times, England.

Look For Big Apple Crop

The B.C. Provincial Government Horticulturist estimates the apple crop in the Kootenay and Arrow Lake districts of British Columbia, at 93,000 boxes as against 76,000 boxes last year.

Fairbanks, Alaska, only 120 miles south of the Arctic Circle, is hot enough at times for people to be overcome by heat.

Recipes For This Week

(By Betty Barclay)

A VERY GOOD STEW

(Serves 6)

- 2 pounds sirloin steak.
- 2 large onions.
- 2 tablespoons fat.
- 4 medium potatoes.
- 4 large carrots.
- 1 can peas.
- 1 tablespoon lemon juice.
- 4 cups water.

Salt and pepper to taste. Put the fat in large stew pan. Heat until melted. Add the onions finely chopped. Then put in the meat cut in small pieces. Simmer until a light brown. Add the four cups of water and let cook slowly until meat is tender—about 1 1/2 hours. Dice carrots and potatoes. Add to the above and cook 20 minutes longer. When ready to serve add the peas and lemon juice and heat. Thicken with a little flour and water.

CHRYSANTHEMUM SALAD

(Serves 6)

- 6 small oranges.
- Lettuce.
- Apples.

Cut through the skin of oranges three-quarters of the way down and in very fine strips, being careful not to break strips apart. Remove orange pulp and cut in pieces. Place each orange skin in a bed of lettuce leaves and fill center with orange pieces and long slender pieces of apple. Serve with any desired dressing.

Ask Federal Aid

Want Assistance In Carrying Out Public Works In Saskatchewan

Federal assistance in carrying out a public works programme in excess of \$2,000,000 will be asked by Saskatchewan as an unemployment relief measure to meet requirements here for the next twelve months, Mayor John W. Hail has stated.

A payroll of \$70,000 per month for about a year would be assured if the suggested request is acceded to by the federal authorities. This would be sufficient, the mayor believes, to provide employment for all jobless married men in Saskatchewan. No plans are being made for single unemployment, the contention being expressed by the mayor that their problem was a purely federal matter.

Without a Country

"I am a woman without a country," declared a delegate at the Women's Co-Operative Guild Congress at Cheltenham, England, in an appeal to the government to allow a woman to retain her nationality after marriage. She was married to a Swede, who died three years ago. Through long residence in England her husband had lost his own citizenship, and by her marriage to him she now had no nationality at all.

Suitor: "Do you ever peep through the keyhole when I am sitting in the parlor with your sister?" Small Brother (with a burst of candor): "Sometimes, when mother ain't there."

Hospital Opened At

Chesterfield Inlet

Will Serve Nomadic Eskimo and Trappers In Far North

Bishop Turquetil and four nurses, members of the Grey Nuns Sisterhood, arrived at Churchill completing a long journey from Quebec by Canadian National Railways. The party was en route to Chesterfield Inlet, 500 miles north of this Hudson Bay port, where the farthest north hospital on the continent opened last week. The veteran Roman Catholic churchman, known throughout the continent as the "Bishop of the Arctic," left with the nurse in his 25-foot motor boat on the hazardous trip along the rocky west coast of Hudson Bay.

With the opening of the hospital His Lordship sees the realization of a dream he has had for nearly two decades in the barren country of northern Canada. The hospital will serve the nomadic Eskimos and the dozens of trappers that search for fur on the northern fringe of civilization. Educational courses in hygiene are planned for the younger generations of Eskimos.

Interesting War Relics

Regina Man Has Complete Set Of German Plaques

Interesting, if grim, relics of the passions and hatreds stirred by the Great War, are brought to light by J. H. Halls, of Regina, into whose possession has come a complete set of reproductions of the plaques struck by the Government of Germany commemorating various outstanding events during the dark days of 1914-1918.

The plaques were distributed to the citizenry and soldiery of Germany with the object of bolstering morale and stirring up hate, chiefly against England. They depict, among other things, the sinking of the Lusitania, Lord Northcliffe as a disseminator of lies, the triumphant German soldier conquering a figure symbolic of the Allies. All the plaques have considerable artistic merit.

A Strange Craft

Dipper Dredger Built On Tyne Has No Propelling Machinery

The strangest craft ever built on the Tyne, a dipper dredger named the Cyclops, left the river recently for the Havre (France) port authorities. The Cyclops has no propelling machinery, but her remarkable plant enables her to raise herself in the water by means of four "legs," each 70 feet long. These "legs," which can be operated rapidly, jib into the river or sea-bed. The dipper can tear into solid rock and scoop up 10 tons of material at a time.

Did Not Improve Matters

Clergyman's Small Daughter (to caller)—"Oh, my! But aren't you homely?"

Her Mother—"Laura, what do you mean by such rudeness?"

Laura (frightened)—"I—I—I mean it for a joke, mamma!"

Mother (innocently)—"Well, it would have been a much better joke if you'd said: 'How pretty you are.'"

Make Your Windows Pay

Invest in WINDOLITE Windows and you will be repaid a hundredfold in the health of your Poultry and Live Stock

WINDOLITE

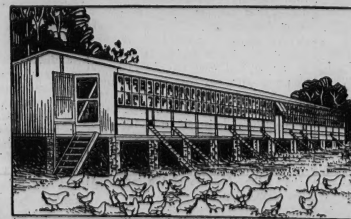

THE ORIGINAL GLASS SUBSTITUTE

MADE IN ENGLAND SINCE 1917 ON ORIGINAL PATENTS

This unbreakable glass substitute is light and flexible, easy to cut and fit, will withstand extreme changes in temperature, keeps out cold and wet, but

allows the full sunlight to enter, including the health-giving Ultra-violet Rays, which do not penetrate ordinary glass.

CUT DOWN YOUR LOSSES BY INSTALLING WINDOLITE

Canadian breeders of poultry and livestock are finding Windolite a most satisfactory and profitable investment. Young chickens and turkeys are entirely free from leg weakness and disease and will thrive in confinement under Windolite. Windolite comes in rolls any length, but 36 inches wide only.

Human Evolution

New Method Discovered To Estimate Length Of Time Since Early Man Inhabited The Earth

Discovery of a new method of estimating the time of human evolution by the enamel on elephant teeth, was reported to the American Philosophical Society by Dr. Henry Fairfield Osborn.

This enamel time clock scores one more point for the dignity of man's descent, by adding to the evidence that he was more human than apes at least for the last million years.

Until a few years ago the famous ape-man, Pithecanthropus Erectus of Java, was the earliest known fossil of slightly human aspect. By some he was called the possible ancestor of man. He lived half a million years ago.

But two years ago much more human-like skeletons were identified in both England and in the Peking man. Both were estimated at 1,000,000 years old by geological methods.

Osborn's new enamel time clock confirms this million years age, again identifies Pithecanthropus as only a half million years old. This shows, he said, that the Java form was no ancestor of modern man, though he might have been a survivor of some ancient and primitive creature.

Gonometric measurements is the name coined for the new dating method. It is derived from the Greek word "Gonos," signifying enamel. It is the result of two years' work by Edwin H. Colbert and Dr. Osborn, of the American Museum of Natural History of New York.

They studied all the posterior grinding elephantine teeth in the museums of India, Europe and North America. They found that certain enamel foldings of these teeth have been growing progressively longer for millions of years. Each change in length belongs to a well known elephant of prehistoric times.

Ancient man is associated with the elephants by evidence that he probably hunted them, followed their trails about the world.

"These first results reported to the American Philosophical Society," said Dr. Osborn, "will be presented in a more mature and thoroughly considered form before the centenary meeting of the British Association to be held in London, England, during September, 1931."

Would Not Change Places

"What wages would you want?" asked a district farmer of a prospective hired man in the employment office at Stratford, Ontario.

"Thirty dollars per month," was the reply.

"I'll tell you what I'll do," said the farmer. "You take the farm, work it the same as I am doing and I'll work for you for \$30 a month."

The prospective hired man declined the offer.

It rains more on the just if he leaves his umbrella within reach of the unjust.

CORNS

Lift off - No Pain / QUICK RELIEF

Just a drop or two of Putnam's on any sore corn will cure it without pain. The corn shrivels up and drops off. No scar, no pain, no pinching from tight shoes. You can dance or walk in comfort. Use only Putnam's Corn Extractor. Satisfaction guaranteed. Sold by druggists everywhere.

PUTNAM'S

W. N. U. 1930

Russian Built First Two-Motored Plane

And Became One Of World's Greatest Aeronautical Designers

The largest commercial airplane in the world is nearing completion in Connecticut and can trace its ancestry directly to a Russian, which lived and died in Russia in 1910.

In that year a young man of 27 abandoned experiments he had been conducting with a helicopter and built his first airplane. To the considerable surprise of his friends the plane flew. It flew, in fact, 12 times, but on the 13th hop the engine died in mid-air and the plane crashed to demolition.

The young inventor crawled unhurt from the wreckage and set about discovering the reason for the engine's sudden cessation. At last, working by the process of elimination, he came to the gas line. He blew through it and out came the defunct mosquito which had clogged the fuel line and thus, as it turned out, given its life for the advancement of science.

"Planes will never be safe," the inventor decided, as long as so feeble a thing as a mosquito can destroy the power plant. Evidently what must be done is to have more than one engine so that when the need arises they can be divided, one for the mosquito and one for the plane.

Thus the idea of multi-motored planes was born in the mind of Igor Sikorsky, later to become one of the world's greatest aeronautical designers.

Three years after he survived the encounter with the mosquito, Igor Sikorsky built the world's first two-motored plane and ever since has been an advocate of extra power.

The flying boat with wheel gear for landings on earth now nearing completion in the Sikorsky factory near Bridgeport is the largest plane ever built, except the German DO-X.

It should be ready for its first flying tests the end of this month, and when all tests are completed will go into service on the Caribbean Line of Pan-American Airways. A sister ship already has been begun.

Art School In Rockies

Artists Start Unique Colony In Picturesque Glacier Park

At picturesque Glacier Park, in the Rockies, an art colony is being established, preserving the best examples of Indian and western life. This year it will harbor 25 persons. Winslow Reiss, painter of the scene, is the leading spirit behind the scheme. The colony will be made permanent.

Reiss, painter of several views of Waterton National Park, adjoining Glacier Park, and his brother, Hans, will direct sessions of their art school during July, August and September. Instructions will be given in drawing, painting and sculpturing of cowboy and Indian models. Among the students of the college this season will be Miss Harriet Coolidge, daughter of Senator Marcus Coolidge of Massachusetts.

At Glacier House, Winslow Reiss declares, an artist can find "a natural centre for the study and interpretation of art." The purpose of the colony, he said, is chiefly educational, "for here the Indians and cowboy life find a natural setting—much more so than in the southwest." Members of the colony this year, will represent several states of the southern republic and at least one European country, he said.

Where Population Is Dense

Census Shows Britain Has Most People To Square Mile

The latest British census shows a population of 685 to the square mile. This is the highest human density in the world. Belgium comes next with 663 per square mile; Netherlands, 561; Italy, 349; Germany, 348; Switzerland, 250; Denmark, 229; Hungary, 221; Austria, 192; France, 187; Portugal, 183; Ceylon, 180; Greece, 167; India, 155; Spain, 110; China, 97; Russia in Europe, 61. The figure for the United States is 39, and for Canada, Australia, and Newfoundland, each, 2. Australia and this Dominion can certainly still boast of their wide open spaces.

Industries Flourish In Manitoba

The industrial payroll of Manitoba is \$10,000,000 greater than five years ago. In a comparison with the high record of prosperity, established in 1929, the number of industrial establishments in the province to date is greater than ever before; the invested capital is at a record to date and the gross value of production is well maintained.

SCIATICA?

Here is a never-failing form of relief from sciatic pain:

Take Aspirin tablets and you'll avoid needless suffering from sciatica—lumbago—and similar excruciating pains. They do relieve; they don't do any harm. Just make sure it is genuine.

Believes In Mineral Possibilities Of North

Finder Of Silver Ore Near Great Bear Lake Looks For Big Strike

A book written by a Jesuit priest, a missionary in the Northwest Territories 60 years ago, gave T. G. Donovan, Detroit geophysicist and prospector, the clue which led him to the discovery of valuable mineral deposits in the Great Bear Lake area, far north of Edmonton and within 20 miles of the Arctic Circle. Mr. Donovan, was in Winnipeg en route to Ottawa to confer with Dominion geologists on a rich find of uranium oxide, the parent ore of radium and silver, told of his adventures, and the preparations he made before his explorations in the northland.

"Don't get the idea that it is like picking up a million dollars in the street," he said. "Before I went out there I spent six months in preparation. What started me was a book I had heard about written in French by a Jesuit priest 50 years ago. He had been up there as a missionary and wrote a book on geology of that country. I had it translated into English. Later I obtained confirmation from him, so that I knew where I was going long before I started."

"The priest was dead right in what he said about the north country. At the moment I can't remember his name. I firmly believe that the district around Great Bear Lake is the most highly mineralized in the world. Of course a great deal of prospecting will be necessary yet before any definite extent of the ore bodies can be obtained."

Adopts Open Market Policy

Alberta Members Not Obligated To Sell Wheat Through Pool

Directors of the Alberta Wheat Pool announced, at the close of the session of pool delegates at Calgary, that members would be allowed the option of selling their 1931 and 1932 crops on the open market or delivering to the pool. The coarse grains pool will not operate this year, and members may deliver coarse grains to pool elevators for cash, as was done last season. The pool announced an initial payment of 30 cents a bushel, basis No. 1 Northern, Vancouver, for 1931 wheat deliveries.

No deductions will be made on this year's crop. It was stated, to cover overpayments on 1931 deliveries, as satisfactory arrangements in this connection had been reached with the Alberta Government.

Miller's Worm Powders are a pleasant medicine for worms in children, and they will take it without objection. When directions are followed it will not injure the most delicate child, as there is nothing of an injurious nature in its composition. They will speedily rid a child of worms and restore the health of the little sufferers whose vitality has become impaired by the attacks of these internal pests.

Appliance For Railroads

Latest Marvel Detects Invisible Cracks In Steel Rails

Railways can now have the services of an electrical appliance that will detect invisible cracks in steel rails, a condition that has caused so many wrecks in railroad history that it has become known as "rail cancer." This latest marvel was worked out by Emory G. Sperry, gyro wizard, just before he died, a few months ago. Recent tests have proved that through the application of electrical current, fissures are disclosed that otherwise would grow until the rails fell apart.

Good Word For Canada

"If I were a young man with my future all before me I would go to Canada," said Rt. Hon. Stanley Baldwin, Britain's Conservative Leader, in the course of an address at Hull. He was referring to unemployment, and expressed the hope the industrial field overseas might offer as good a home, and perhaps a better home, than for many years our people had been able to maintain here.

Will Follow Viking Route

MacMillan Plans To Fly To Iceland By Way Of Labrador and Greenland

Donald B. MacMillan, veteran Arctic explorer and perhaps the most famous of American navigators who have spent years of research and discovery in the land of the midnight sun, has decided, for the present, at least, to cancel the plans he had made previously concerning a flight to London, England. The veteran explorer had hoped to carry out his expedition and covers on his flight to the greatest city in the Empire, the proceeds from which it was planned to be used in the educational work conducted by the commander in Labrador.

Although the explorer was sorry that he could not carry out his original plans, he announced that he would make his aerial survey as was outlined before, and in stating his decision to continue the second part of the flight as originally planned, Commander MacMillan said the purpose of his flight was to discover the "Bowdoin," which is really a continuation of my work begun in 1927 and in no way is intended as a demonstration of the practicability of a northern air mail route to England.

My interest is not any proposed flight in the trans-Atlantic flying. I am, however, deeply interested in helping Sir Wilfred Grenfell in his welfare work and in co-operation with him and Dr. Alexander Forbes, of Boston, in a survey of the last 300 miles of northern Labrador.

This year the "Bowdoin" will be devoted to the work of surveying part of the Labrador coast in conjunction with the aerial survey which I hope to make. I am also interested in the welfare of my school of 40 Eskimo kiddies in the village of Iglood, in the north of the province. For 170 years for the Moravian missionaries. That is one reason why my schooner "Bowdoin" leaves each year loaded with supplies for the poor people of Labrador. My other interest is in the story of the Vikings, that discovery of America, and their home Greenland and Iceland. Therefore, I am planning to fly to Iceland by way of Labrador and Greenland.

Error Discovered In Time

Tablet In Memory Of Dickens Almost Placed On Wrong Building

A tablet unveiled in Montreal on May 31, to commemorate the fact that Charles Dickens had lived at Rasco's Hotel during his visit to this city in 1842, would have been placed on the wrong building had it not been for Dr. H. A. Atherton, professor of English at the University of Montreal, and past president of the Montreal branch of the Dickens Fellowship in North America.

A few years ago a well-known French-Canadian artist painted a picture entitled "Rasco's Hotel, Bonsecours Street," which showed a little, picturesque, tumbled-down building. The Montreal Dickensians, recalling that Dickens had boarded at Rasco's, were delighted with it, and decided that the original of the picture should be honored with a tablet. As luck would have it, a copy of the picture was shown at a Dickensian meeting at which Dr. Atherton was present.

"What's this? What's this?" exclaimed the doctor. "Rasco's Hotel, Bonsecours Street? Rasco's Hotel was never in Bonsecours Street. It is in St. Paul Street."

Astonished officials of the Montreal branch at once hurried to the spot, and found that the doctor was right. There in St. Paul Street they discovered the real Rasco's Hotel, but an imposing stone structure, whose identity was further emphasized by the fact that it had its name in great relief letters on the front facade.

Diner: "What sort of pudding is this?"

Waitress: "We call it college pudding, sir. Like it?"

"No. I'm afraid there's an egg in it that ought to have been expelled."

An instrument has been invented to measure the force of an earthquake.

"What do the shoes cost?"

"Twenty shillings."

"Not so dear!"

"That is for each shoe, of course!"

—Die Musketier, Vienna.

"What are the shoes cost?"

"Twenty shillings."

"Not so dear!"

"That is for each shoe, of course!"

—Die Musketier, Vienna.

Flaws In Steel Rails

Remarkable Instruments Detect Defects In Track While Moving At A Fair Speed

Looking into steel rails for invisible flaws, two remarkably equipped cars have been travelling over western lines of the two Canadian transcontinental railways during the past few weeks.

Moving at a fair speed over the rails these robot detectives mark the invisible faults that might cause a split rail, and forever damn the guilty rails in the eyes of section crews by automatically painting them white. Up in the car the needle of one of the instruments is tracing a continuous line on paper. When the rails are good the line is comparatively level. When a flaw is traversed the infallible needle bobs, or ducks, and down goes the white splash of paint.

Invented by the late Mr. Sperry, these cars are leased to railways by the Sperry Rail Detector Company, of New York. Each carries its own chief operator and motorman. Over every section of track covered, the local section foreman follows with his gang, to make immediate replacements.

THE RHYMING OPTIMIST

By Aline Michaels

WIND FROM THE SEA

Tonight the wind is from the sea And bears the tang of salt to me. Just here, the honeysuckle grows, And there the trellis with the rose Stands close beside the garden gate To tempt the passer with its freight Of wine-sweet, petalled loveliness. The daisies in their snowy dress Along the pathways nod and bend As gracious women greet a friend. Yet when the wind is from the sea It brings strange messages to me; I feel, within, a sudden need Of stinging spray and drifting weed, Of sea-weed red as any rose Tossed lightly where the strong tide flows.

Ah, I would know the press and surge Of ocean in its restless urge! Tonight the wind is from the sea; What can the roses say to me?

Aeromobile May Be Speedy

Vehicle Driven By Air Propeller Invented In Germany

Great speed at low cost is expected from the aeromobile, the machine recently invented by two German inventors. The vehicle is described by them as an automobile driven by an air propeller. The air screw lies horizontally on the back part of the chassis. Above it are several parallel plane surfaces forming a sort of lattice-work arrangement, the angles of which may be altered. The air stream produced by the propeller breaks through these surfaces, providing the driving power.

Minnesota In The Lists

Preparing To Enter Exhibits At World's Grain Show

Minnesota producers are getting ready to enter the lists against those of other countries in the competitive classes of the World's Grain Exhibition and Conference to be held at Regina in 1932. A campaign is now being conducted by the Minnesota Crop Improvement Association among its members with the purpose of encouraging them to prepare special plots so that they may thus secure high class samples to enter in the various classes.

"Mothers have a pretty bad time."

"Why?"

"Well, they're always afraid that some girls will marry their sons and that some men won't marry their daughters."

"What are Smith's two daughters like?"

"The elder is terribly simple and the younger is simply terrible."

TO GREAT BRITAIN and back

SPECIAL REDUCED third class fare from Montreal to Belfast, Glasgow, Liverpool, Plymouth or London and back. Good going from Aug. 1st to Oct. 15th

Return portion valid for 2 years. Round trip rate to Continental points reduced proportionately.

Two sailings a week.

Little Helps For This Week

"The Lord bless thee, and keep thee; the Lord make his face shine upon thee, and be gracious unto thee." —Numbers vi. 24, 25.

In having all things, and not Thee, What have I? Not having Thee, what have my labors got?

Let me enjoy but Thee, what further crave I? And having Thee alone, what have I wish nor sea, nor land; nor would I be Possessed of heaven, heaven unpurchased of Thee.

—Francis Quarles.

There is no holiness if the Lord withdraw His presence; no wisdom if His Spirit ceases to direct. In our own nature we are as unsteady as the sand upon the mountain; but in God we have the stability of the throne in heaven. Kindle, O Lord, our hearts with light and life by the holy fire of Thy love and blessing.

—Thomas A. Kempis.

Dehydrated Apples

Stocks On Hand In The Okanagan Valley Now Practically Exhausted

Stocks of dehydrated apples in the Okanagan Valley have practically been exhausted. Only very small amounts are in the hands of packers. Since fresh apples have not been available there has been a good demand for the dehydrated product. Reports from the east are to the effect that only small quantities are now on hand, not over 2,000 boxes, all told, are in the hands of evaporators.

Persian Balm is alluringly fragrant. Adds a charming refinement to the most finished appearance. Creates and preserves complexions of surpassing loveliness and texture. Softens and whitens the hands. Cools and dispels all irritation caused by weather conditions. Swiftly absorbed by the tissues leaving no residue of stickiness. A perfect toilet requisite. Invaluable to all women who care for elegance and distinction.

Abattoir For Saskatoon

The Saskatchewan Livestock Producers have arranged to build a small abattoir in Saskatoon costing approximately \$75,000.

Night flying has been introduced for the first time regularly on a British commercial air route.

Cactus plants, which now are spread throughout many parts of the world, were American natives.

Took It Before Childbirth

"I felt much stronger"

"I FIRST took Lydia E. Pinkham's Vegetable Compound before childbirth because I was so weak."

"After taking it, I felt much stronger. I could sleep better and I could do my work."

"I have taken the Vegetable Compound for eleven years off and on whenever I need it and need I recommend it." Mrs. Emily Schindler, Renovo, Saskatchewan.

This is only one of thousands of letters praising this simple, home remedy and recommending it to women who need a strengthener.

Prince Launches Ship

Before an immense gathering, H. R. H. the Prince of Wales launched the 42,000-ton Canadian Pacific liner Empress of Britain, largest steamship in the British Empire, from the Clydebank yards, June 11. The picture, snapped as the huge vessel had just taken the water, was transmitted to this continent by radio a few seconds later. Millions of listeners-in from all parts of the world heard the Prince make the address at the launching and also the address of E. W. Beatty, chairman and president of the Canadian Pacific Railway, who followed His Royal Highness.

Miss Lillian Whitby of Edmonton is spending part of her vacation with Miss Rena Fenton of Sunny Brae.

Mr. James Fenton, Mr. and Mrs. Eldon Fenton and Mrs. Dunlop, motored to Edmonton Monday.

Mrs. E. C. Johnson of Brighton Iowa, and Mrs. Adolph Jendres of Toledo, Iowa, are visiting their sister Mrs. Frank Peterson of Irma.

Miss Merle and Evelyn Hillard, of Ryley have been visiting their aunts, Mrs. Earl Tomlinson and Mrs. I. T. Skiles.

The Nu Way store at Irma has moved to their new location in the Headley Block, corner of Main Street and Second Ave.

Mr. James Fenton's great aunt of Chatham, New Brunswick, celebrated her one hundredth birthday last Thursday, Miss Perly is bright and smart and able to be about.

The next regular meeting of the Irma Ladies Aid will be held at the home of Mrs. A. E. Blakey on Strawberry Plains, Thursday, August 13th. All ladies are invited to attend.

Grain is filling in fine shape in all parts of the Irma district, cutting of the early wheat should start within the next two weeks as some of the fields are turning yellow. The heavy wind and rain storm last week ended laid some of the wheat down but as this dries out it will likely straighten up again.

On July 23rd the Roseberry and Alma Mater Ladies Aid met for their first regular meeting at the home of Mrs. A. A. Fischer, fifteen ladies being present. Mrs. Stead and Mrs. Millan are our two new members, while we were pleased to have Miss Taylor, Mrs. John Watson, Mrs. Elmer Jones and Mrs. Ogilvie of Calgary as visitors. Much discussion took place as to the best plan of carrying on and it was decided that we commence sewing in preparation for a sale of work some time in the fall. Also making plans to hold a supper in Roseberry School. While no definite date was set for either the sale or supper, still it gives us an objective towards which to work. Our meeting will be at the home of Mrs. A. A. Taylor where we hope to see still more of the Roseberry and Alma Mater ladies present. Lunch was served by the hostess to whom our President moved a vote of thanks for a very pleasant afternoon.

HUGE DECREASES IN WORLD WHEAT FOR 1931 LIKELY

Marked Canadian, Argentine Reductions Shown in U.S. Survey.

Washington. — A world wheat crop 250,000,000 to 300,000,000 bushels less than last year was forecast Thursday by the agriculture department in its latest summary of 1931 prospects.

Surplus stocks of old wheat, however, may total 100,000,000 bushels more than remained on hand July 1st, 1930, in exporting countries. On the other hand supplies in importing nations are probably smaller, the department said.

The farm board is considering the sale of some stabilization wheat in foreign countries. Chairman Stone said today, however, no definite agreements have been made.

In response to requests for a new sales policy, the board agreed to limit sales to 60,000,000 bushels this year's exclusive of sales to foreign governments now under consideration.

Canadian wheat production, sharply reduced by drought, may be 150,000,000 bushels below 1930 while acreage reductions in Argentina and Australia together may bring about a further reduction of 100,000,000.

The department said some curtailment is to be expected in Russia thru smaller yields, although acreage planted is considerable. Balkan countries also are harvesting smaller crops. Importing countries of central Europe, on the other hand, have better prospects than last year.

The department said Russia was an uncertain factor in the world wheat situation, adding that its carry-over from the large 1930 crop is probably larger than that from the previous season, might be more than last season because of the larger supplies at the beginning of the new crop year.

THROUGH THE ROCKIES

Last night it was dry and dusty when we left Calgary. As we pulled out of the station I was glad to be moving again. Travelling has its pleasures, but travelling alone is not so much fun. The train was hot and dusty, too. Across from me was a Scottish family bound for Kamloops. They were just having supper when I got onto the train. In an hour or so the porter came to make up our berth and I was glad it was growing dull and dark and I felt like lying down. Thank goodness I had a lower berth, how anyone can tolerate uppers is beyond me.

After I washed and crawled into bed, I did not feel like sleeping, it was too hot and stuffy and I wanted a drink of cold water. I lay and read my magazine while the train rolled on. Soon the scenery began to change and in the darkening shadows I looked out upon the mountains — my first glimpse of the towering peaks of the Rockies. As we swung along streams of water appeared and disappeared, groves of trees came into view and were left behind — telegraph and telephone poles flashed by — but ever and anon the huge bulk of the mountains loomed up, and above all glimmered the stars. It was more than beautiful — it was grand, overwhelming, awful!

I was still awake when the train pulled into Banff and stopped. The station, glittering with lights, seemed scarcely to fit into that scene of grandeur. Nor did the couples gayly dressed and hilariously joyful suit the quiet staidness of the night. We passed on, however, and were soon again in darkness. Presently I fell into a dreamless sleep — not to awaken until the sun was high in the sky and the world alive with light and song.

How strange to the prairie dweller to open one's eyes and in the daylight see the trees, the mountains, and the water flashing by with all the colors of nature blended into one harmonious whole. How different from the lights and shadows of night!

On and on we went. Past towns, through tunnels, and around curves. From Salmon Arm through to Kamloops, the railroad follows the river for miles. Curving gracefully in and out, here looking down upon the river, there looking upward to the mountain tops, we moved swiftly westward. In places, looking forward, the engine could be seen nosing its way carelessly around a curve while away to the rear the observation car seemed to be rounding a curve all its own.

We stopped at Kamloops for ten minutes. It was a relief to get out onto the platform and away from the continual rocking of the train. From Kamloops on, for many miles, we swept along — in places with the mountains towering high above us on either sides, in places rolling along at an elevation of many feet above the river — at such times it seemed as if one, leaning outward, might topple the whole train over the embankment into the river below.

It grew hotter and hotter and dustier and dustier. The open cars were too breezy — the others too stuffy. But we must needs make the best of it. At North Bend we stopped again for ten minutes: The station was surrounded by lovely gardens — green, cool and inviting. Most of the passengers got off to get ice cream or a cooling drink. The heat continued as we wound our way onward. We are still following the river and across, on the other side, can be seen another railway line and, occasionally, a train is seen entering or leaving a tunnel. It must be miles away for it seems like a live line moving along. For miles we can see the main motor highway and now and then cars flash by — sometimes coming, sometimes going. Finally we reach Agassiz, a charming town spread out to quite a distance on either side of the station. From now on the country appears more flat, the mountains more distant, but the river continues on its way. A strong breeze has arisen bringing with it the tang of the water and the odour of trees. And so, on and on, past lumber camps, past thrifty looking farms, through sleepy little towns until we reach Vancouver. — Contributed.

RAILWAY TO PAY FOR SMASHED CAR

Oscar Green, Colinton, was awarded \$3,746.00 against the C.N.R. in a judgment rendered by Mr. Justice Ford Saturday for damages incurred when his car was demolished in a level crossing accident at Colinton. According to evidence, Green who was well acquainted with train schedule, was not expecting a train on the day of the accident, July 4th, 1930, but a special gas-electric train came and they collided.

In giving judgment the court held that the siren of the locomotive, being unlike the regular whistle, and more like a bus siren, was not sufficient warning and that the engineer should have sounded that bell.

J. W. Stuart, Sec.

BINDERS FOR SALE

Whether you need a Binder or not we invite you to come in and see the new Massey-Harris. See the New Forcecarriage, two horses each side the pole. It will probably pay you better to make a payment on a New Binder and save the worry and delay rather than put that same money into the old one and still have the old one when you are through. The low price of grain is all the more reason why you should save it all. Remember, the Massey Harris is now the lightest running binder on the market. Come in and let us show you. If you want a second hand one, come in and see us.

How about getting those Waggon Wheels fixed up now before the harvest rush. If your wheels are dished, we can straighten them and guarantee satisfaction. Remember, we do Woodwork as well as Blacksmithing.

Vic Hutchinson

BLACKSMITH AND WOODWORKER

P. S.—Don't leave your repair order until the last minutes

NATURAL LEAF TOBACCO FOR SALE

(A Sample Package)

10 lbs., good Leaf Tobacco with Real Briar Pipe free, \$2.50; 50 lbs., \$10.50; 100 lbs., \$20.00.

Pure Quensel, \$1.25 lb.; 3 lbs., \$3.00.

Special price for more. Ship to any destination.

All Steel leaf tobacco knife cutter, mounted on hardwood block, for 10 days only, \$2.00.

G. DUROIS,

18 Henderson, Ottawa, Ont.

The Wastebasket

You certainly looked silly when you proposed," said a Bruce lady the other day while reminding her husband of their early courtship. "No wonder," he replied, "Look at the silly thing I was doing."

"People sometimes find a pearl in an oyster stew," remarked a waiter in a Jarrow restaurant to a customer. "But I am looking for oysters," granted the customer.

"What is the matter with this pie? It tastes poisonous," said a newly married man to his wife at the dinner table yesterday. "Well, I got the recipe over the radio during a home hour talk," she replied, "but I guess another station talking on how to get rid of bedbugs got mixed with it at the same time."

BEEF COUNCIL AIDS PRODUCERS

Gratifying results have attended the efforts of the Council of Western Beef Producers, according to Jack Byers, secretary-manager, of Calgary. Although only formed on April 1st, the Council has already been able to establish weekly shipments of beef cattle to the British market and has secured an allocation of ocean space that will permit of continuous movement throughout the year.

Beef producers to the number of 800 have become actively interested in the Council, and their holdings represent some 260,000 head of stock.

The Council of Western Beef Producers was formed for the sole purpose of promoting the interests of those engaged in the Beef Cattle industry, and the manner in which the marketing problem has been attacked is a promising indication of the success that will attend other endeavours to be undertaken later. For this year however, the activities of this body will be confined to marketing problems.

Rod Macleay of High River, Alberta, is chairman of the Council, and George Ross of Milk River the other Alberta representative. D. J. Wylie of Maple Creek and R. Gilchrist of Victoria represent Saskatchewan, and R. H. Heimer of Nicola and W. McMoran of Chilcotin represent British Columbia.

Producers desiring further information concerning the aims and work of the Council should write the Secretary-Treasurer, 5 Central Building, Calgary, Alberta.
